Halloween and Other Festivals of Death and Life Jack Santino, 2025-03-14 Why do we celebrate Halloween No one gets the day off and unlike all other major holidays it has no religious or governmental affiliation A survivor of our pre-Christian agrarian roots it has become one of the most popular and widely celebrated festivals on the contemporary American calendar Jack Santino has put together the first collection of essays to examine the evolution of Halloween from its Celtic origins through its adaptation into modern culture Using a wide variety of perspectives and approaches the thirteen essayists examine customs communities and material culture to reveal how Halloween has manifested itself throughout all aspects of our society to become not just a

marginal survivor of a dying tradition but a thriving contemporary post industrial festival Its steadily increasing popularity despite overcommercialization and criticism is attributed to its powerful symbolism that employs both pre Christian images and concepts from popular culture to appeal to groups of all ages orientations and backgrounds However the essays in this volume also suggest that there is something ironic and unsettling about the immense popularity of a holiday whose main images are of death evil and the grotesque Halloween and other Festivals of Death and Life is a unique contribution that questions our concepts of religiosity and spirituality while contributing to our understanding of Halloween as a rich and diverse reflection of our society s past present and future identity **Hoot Howl Halloween** Becky (Children's author)
