Scent Of Eucalyptus A Journal Of Colonial And Foreign Service:

The Scent of Eucalyptus Richard Posnett, 2001-08-10 Richard Posnett's first post in the Colonial Service was in Uganda. These were times of rapid change for the British Empire in Africa with independence for Tanzania, Uganda and Zambia, the tragedy of the Belgian Congo and the uprising of Hutus against Tutsis in Rwanda. The baptism by fire in Uganda was followed by an appointment as a member of the UK delegation at the UN and then as Commissioner in Anguilla at the time of the attempted independence from St Kitts. After further service as Governor during the British Honduras dispute followed by Ocean Island, possibly the most stimulating assignment was the author's return to Uganda after the fall of Idi Amin following his disastrous war with Tanzania.

Winding up the British Empire in the Pacific Islands W. David McIntyre, 2016-11-24 Little has been written about when and how and why the British Government changed its mind about giving independence to the Pacific Islands. Using recently opened archives, *Winding Up the British Empire in the Pacific Islands* gives the first detailed account of this event. As Britain began to dissolve the Empire in Asia in the aftermath of the Second World War, it announced that there were some countries that were so small, remote and lacking in resources that they could never become independent states. However, between 1970 and 1980, there was a rapid about-turn. Accelerated decolonization suddenly became the order of the day. Here was the death warrant of the Empire and hastily arranged independence ceremonies were performed for six new states: Tonga, Fiji, Solomon Islands, Tuvalu, Kiribati and Vanuatu. The rise of anti-imperialist pressures in the United Nations had a major role in this change in policy, as did the pioneering examples marked by the release of Western Samoa by New Zealand in 1962 and Nauru by Australia in 1968. The tenacity of Pacific Islanders in maintaining their cultures was in contrast to more strident Afro-Asian nationalisms. The closing of the Colonial Office by merger with the Commonwealth Relations Office in 1966 followed by the joining of the Commonwealth and Foreign Offices in 1968 became a major turning point in Britain's relations with the Islands. In place of long-nurtured traditions of trusteeship for indigenous populations that had evolved in the Colonial Office, the new Foreign Commonwealth Office concentrated on fostering British interests, which came to mean reducing distant commitments and focussing on the Atlantic world and Europe.

The International Journal of African Historical Studies, 2002 **Operation Sheepskin** Matthew J. Lord, 2023-12-19 In the early morning darkness of 19 March 1969, troops from Britain's 2nd Battalion of the Parachute Regiment, 2 PARA and Royal Marines clambered into the small landing craft and helicopters aboard HMS Minerva and HMS Rothesay. Their objective under Operation Sheepskin was to invade the small Caribbean island of Anguilla through both an amphibious and airborne assault. The operation aimed to crush a two-year island rebellion against the postcolonial government of Robert Bradshaw on St Kitts. Recent military intelligence reports had been patchy as to the level of resistance to be expected from the islanders, however, the number of firearms estimated to be on the island and the recent hostility experienced by British diplomats suggested that the troops were about to encounter a storm of bullets as they hit the

beaches Strangely enough as the squaddies splashed ashore they were met by the thunderous silence of an empty beach apart from the clicks of journalists cameras To the surprise of all involved the occupation of the island was subsequently achieved without bloodshed Whilst British policymakers soon questioned whether they had misread the situation in Anguilla and overreacted militarily Fleet Street and the international media responded with ridicule The operation was presented as a farce and emblematic of Britain's declining world role since the end of empire This satirical interpretation has remained the abiding memory if the invasion is remembered at all within British public consciousness Despite the military anti climax however this does not detract from the considerable importance of Operation Sheepskin for understanding the complexities of decolonization in the Caribbean Britain's military performance following the retreat from East of Suez and decision making within the Labour government of Prime Minister Harold Wilson This book offers an in depth military and political reappraisal of the Anguilla Crisis exploring the countdown to military intervention its tactical implementation and its legacy In doing so the book evaluates the reasons for the British government's apparent overreaction to the crisis the scandal that rocked Whitehall as Operation Sheepskin was being arranged and finally the series of operational blunders which emerged as the operation was carried out Constituting a neglected and unusual chapter of post war British military history the book will appeal to those readers interested in the wars of decolonization British politics in the 1960s and the history of the Caribbean at the end of empire
