James-Chakraborty,2002-09-06 This book vividly illustrates the ways in which buildings designed by many of Germany s most celebrated twentieth century architects were embedded in widely held beliefs about the power of architecture to influence society German Architecture for a Mass Audience also demonstrates the way in which these modernist ideas have been challenged and transformed most recently in the rebuilding of central Berlin *Who's who in Architecture* James Maude Richards,1977 Who s who in architecture is the long awaited comprehensive guide to architects from the early Renaissance to the present the book provides over 500 entries arranged alphabetically for easy reference irrespective of chronology or geography Major architects are covered at length by a leading specialist or scholar of the period **Site and Sound**

Emanuel, 2016-01-23 **Modern Religious Architecture in Germany, Ireland and Beyond** Lisa Godson, Kathleen James-Chakraborty, 2019-03-07 Modernity and religion are not mutually exclusive Setting German and Irish church synagogue and mosque architecture side by side over the last century highlights the place for the celebration of the new within faiths whose appeal lies in part in the stability of belief they offer across time Inspired by radically modern German churches of the 1920s and 1930s this volume offers new insights into designers of all three types of sacred buildings working at home and abroad It offers new scholarship on the unknown phenomenon of mid century ecclesiastical architecture in sub Saharan Africa by Irish designers a critical appraisal of the overlooked Frank Lloyd Wright trained Andrew Devane and an analysis of accommodating difficult pasts and challenging futures with contemporary synagogue and mosque architecture in Germany With a focus on influence and processes alongside conservationists and historians it features critical insights by the designers of some of the most celebrated contemporary sacred buildings including Niall McLaughlin who writes on his multiple award winning Bishop Edward King Chapel and Amandus Sattler architect of the innovative Herz Jesu Kirche Munich A History of Western Architecture David Watkin, 2005 The history of Western architecture from the earliest times in Mesopotamia and Egypt to the dramatic impact of CAD on architectural practice at the beginning of the 21st century

Making Dystopia James Stevens Curl, 2018-08-23 In Making Dystopia distinguished architectural historian James Stevens Curl tells the story of the advent of architectural Modernism in the aftermath of the First World War its protagonists and its astonishing almost global acceptance after 1945 He argues forcefully that the triumph of architectural Modernism in the second half of the twentieth century led to massive destruction the creation of alien urban landscapes and a huge waste of resources Moreover the coming of Modernism was not an inevitable seamless evolution as many have insisted but a massive unparalleled disruption that demanded a clean slate and the elimination of all ornament decoration and choice Tracing the effects of the Modernist revolution in architecture to the present Stevens Curl argues that with each passing year so called iconic architecture by supposed star architects has become more and more bizarre unsettling and expensive ignoring established contexts and proving to be stratospherically remote from the aspirations and needs of humanity In the elite world

of contemporary architecture form increasingly follows finance and in a society in which the haves have more and more and the have nots are ever more marginalized he warns that contemporary architecture continues to stack up huge potential problems for the future as housing costs spiral out of control resources are squandered on architectural bling and society fractures This courageous passionate deeply researched and profoundly argued book should be read by everyone concerned with what is around us Its combative critique of the entire Modernist architectural project and its apologists will be highly controversial to many But it contains salutary warnings that we ignore at our peril And it asks awkward questions to which answers are long overdue *Modern Architecture and Expressionism* Dennis Sharp,1966 **Contemporary Architects** Ann Lee Morgan,Colin Naylor,1987 To strengthen the contemporary focus of this volume we have added about forty architects and have deleted some whose activity ceased before World War II In making these decisions we have been assisted by an Advisory Board As in the first volume we have continued to define the word architect very broadly so as to include planners theorists structural engineers and landscape architects whose work seems to be central to the enterprise of creating habitable spaces in our day Editor s note Germany in the Loud Twentieth Century Florence Feiereisen,Alexandra Merley Hill,2012 This book introduces German Sound Studies using a transdisciplinary approach It invites readers to auralize space by describing characteristically German soundscapes in the long twentieth century including the noisy city of the early 1900s the sounds of East and West Germany and hip hop soundscapes of the millennium
