An Index to Music in Selected Historical Anthologies of Western Art Music, Part 1 Mara Parker, 2019-01-01 An Index to Music in Selected Historical Anthologies of Western Art Music is the essential reference for music history and music theory instructors for finding specific listings and details for all the pieces included in more than 140 anthologies published between 1931 and 2016. Containing over 5 000 individual listings, this concise book is an indispensable tool for teaching music history and theory. Since many anthologies exist in multiple editions, this Index provides instructors, students, and researchers with the means to locate specific compositions in both print and online anthologies. This book includes listings by composer and title as well as indexes of authors, titles, and first lines of text for music from antiquity through the early twenty-first century.

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1979 **Guillaume de Machaut** Lawrence Earp, 2013-08-21 This book provides an overview of the current state of research on Machaut, the major figure of 14th-century French music and poetry, giving fair representation to the many areas of Machaut research that are pursued in fields outside music. Coverage of the current state of knowledge on each of the manuscripts includes the newly discovered Aberystwyth manuscript described in detail here for the first time. A section on the large narrative poems pulls together recent research of several scholars and offers new views. An up-to-date concordance of the miniatures in all of the illustrated Machaut manuscripts gives information on where published studies and facsimiles may be found. The discography is the most complete list of Machaut recordings yet compiled and provides critical evaluations of recordings most valuable for instruction according to our latest conception of performance practice in the 14th century. A biography section organizes the documentary material in a way that will facilitate further research. The bibliography of secondary works cites books, editions, articles, and dissertations, including forthcoming works from 1740 to 1991, in French, English, the other Western European languages, Polish, Russian, and Japanese.
