**Criticism** Catherine L. Kelsey, 2007-05-25 Friedrich Schleiermacher the father of modern theology found his voice first in preaching This book demonstrates how Schleiermacher moved between the critical reading of Scripture the proclamation of Christian faith to congregations over a forty five year period and eventually the work of theology in all its disciplines Schleiermacher's Preaching Dogmatics and Biblical Criticism is the first work to fully unveil this interaction by focusing on Schleiermacher's 228 known sermons on the Gospel of John Kelsey shows in detail 1 how the central insights of his theology emerged first in his preaching and 2 that his dogmatic writings provided a context within which these insights could be related to all the major doctrinal themes of Christian faith The study concludes by drawing implications for theological reflection and its relation to worship life in our own time

Friedrich Schleiermacher's Pathways of Translation Piotr de Bończa Bukowski, 2023-01-30 This interdisciplinary study introduces readers to Friedrich Schleiermacher's diverse pathways of reflection and creative practice that are related to the field of translation By drawing attention to Schleiermacher's various writings on a range of subjects including philology criticism hermeneutics dialectics rhetoric and religion the author makes it clear that the frequently cited lecture *ber die verschiedenen Methoden des bersetzens* On the Different Methods of Translating represents but a fraction of Schleiermacher's contributions to modern day insights into translation The analysis of Schleiermacher's various pathways of reflection on translation presented in this book leads to the conclusion that translation is part of the essence of the world as it is a fundamental tool of our cognition and a foundation of our existence In Schleiermacher's works transfer translation mediation and communication underpin our very existence in the world and our self awareness At the same time they represent fundamental categories for a project that focuses on the consolidation and assimilation through translation of that which is foreign different diverse

phenomenology     *What's Right with the Trinity?* Hannah Bacon, 2016-02-11 The doctrine of the Trinity poses a series of problems for feminist theology At a basic level the androcentric nature of trinitarian language serves to promote the male as more fully in the image of God and as the archetype of humanity pushing women to the margins of personhood It is no surprise then that feminist scholarship on this doctrine has often focused on what s wrong with the Trinity setting out the problems raised by the use of traditional androcentric trinitarian language This book brings together a discussion of feminist theological methodology with a critical exploration of the doctrine of the Trinity Focussing on what s right with the Trinity as opposed to what s wrong with the Trinity it considers the usefulness of this doctrine for feminist theology today It replaces a stress on trinitarian language with an emphasis on trinitarian thought exploring how we might effectively think rather than speak God in light of feminist concerns In particular it asks how a trinitarian understanding of God might support and be supported by key values which underpin a feminist way of doing theology specifically values which underpin the methodological use of women s experience in feminist theology The central argument is that thinking God as Trinity need not serve to reinforce patriarchal values and ideals but may in fact promote the subjectivity and personhood of women

*An Analysis of Friedrich Schleiermacher's On Religion* Ruth Jackson, 2018-05-11

*On Religion* is a major text for the development of modern religious thought in the West, and its author, German theologian Friedrich Schleiermacher, is remembered as the Father of Modern Protestant Theology, as well as for his contributions to philosophy, ethics, and hermeneutics. Comprising five lively speeches which defend religion as a universal element of human life, the text was addressed to the young intellectual elite of early nineteenth-century Berlin. It demonstrates Schleiermacher's critique of Kant's religious and moral thought while also showing his indebtedness to the divergent movements of Enlightenment rationalism and Romanticism.

**Self, Christ and God in Schleiermacher's Dogmatics** Maureen Junker-Kenny, 2020-12-07

Since its first appearance in 1821–22, *The Christian Faith* has had a fractious history of reception. It implements decisive departures for theology, founding the possibility to speak about God on human freedom. It recognises the role of historical consciousness and the need to relate to advances in the natural sciences. The study investigates the early critiques of Schleiermacher's analysis of the feeling of utter dependence of his conception of Christ as the archetype of the God-consciousness and of his doctrine of God in terms of absolute causality. It reconstructs the revisions carried out in the second edition of 1830–31 as a breakthrough to a transcendental argumentation. Does Schleiermacher's elaboration of the anthropological turn in theology leave it defenseless against the dissolution of faith in a saving God in Feuerbach's projection thesis? Does it offer a naturalising account of religion? And where does the interconnectedness of nature established by God leave what was prized by the Romantics: human individuality? Ongoing objections and new constellations of questions are examined in their relevance for a modern theology that spells out faith in God as a practical self-understanding. Maureen Junker-Kenny's book is an outstanding presentation of Schleiermacher's theology. She attends not only to the development of his method from the first to the second edition of *The Christian Faith* but also to his concrete interpretation of Creation, Christology, Redemption, Theological Anthropology, especially human freedom, and his

understanding of God The book has an exceptional value in the way she relates Schleiermacher not only to his contemporaries but also contemporary concerns Schleiermacher's theology is shown in its relation to the modernity of his age but also the ongoing modernity of today The book has a depth and breath that make it indispensable not only for historical theology but also contemporary constructive theology Francis Schüssler Fiorenza Harvard Divinity School In Self Christ and God in Schleiermacher's Dogmatics A Theology Reconceived for Modernity Maureen Junker Kenny proves herself to be not only a distinguished interpreter of Schleiermacher's work but a creative practitioner in her own right of his dialogical method Elegantly conceived and beautifully written the book shows how Schleiermacher connected the different aspects of his thought form content structure doctrine piety critical rigor into a coherent system Self Christ and God in Schleiermacher's Dogmatics is now the only guide to Schleiermacher's magnum opus Christian Faith anyone needs Christine Helmer Northwestern University Chicago
