Reagen, 1973 **Correctional education programs for inmates** National Institute of Law Enforcement and Criminal Justice, 1979 **STEM Education in US Prisons**, 2024-03-18 Renewal of higher education programs in US prisons creates a need for science education This is the first book to address STEM education in prisons in the United States It calls on activist science teachers to develop innovative ways to teach in challenging carceral settings Over the last fifty years science education and prison education have moved in different directions one expanding and the other contracting This book brings these educational endeavors into cooperative engagement Democratic citizenship opens opportunities for all people irrespective of civil status to study science The book presents student narratives and case studies emphasizing the achievements of STEM education behind prison walls STEM education equity can help address the deep social inequities that mass incarceration creates and magnifies Contributors are Cassandra Barrett Andrew Bell George Bogner Adrian Borealis Drew Bush Kelli Bush Sandy Chang Kelle Dhein Amalia Handler Steven Hart Steven Henderson Tiffany Hensley McBain Paul Kazelis Joe Lockard Edward Mei Tsafirir Mor Rob Scott Laura Taylor Joslyn Rose Trivett and Emily Webb **Voices from American Prisons** Kaia Stern, 2014-06-20 Voices From American Prisons Faith Education and Healing is a comprehensive and unique contribution to understanding the dynamics and nature of penal confinement In this book author Kaia Stern describes the history of punishment and prison education in the United States and proposes that specific religious and racial ideologies notions of sin evil and otherness continue to shape our relationship to crime and punishment through contemporary penal policy Inspired by people who have lived worked and studied in U S prisons Stern invites us to rethink the current punishment crisis in the United States Based on in depth interviews with people who were incarcerated as well as extensive conversations with students teachers corrections staff and prison administrators the book introduces the voices of those who have participated in the few remaining post secondary education programs that exist behind bars Drawing on individual narrative and various modern day case examples Stern focuses on dehumanization resistance and community transformation She demonstrates how prison education is essential can provide healing and yet is still not enough to interrupt mass incarceration In short this book explores the possibility of transformation from a retributive punishment system to a system of justice The book s engaging human accounts and multidisciplinary perspective will appeal to criminologists sociologists historians theologians and scholars of education alike Voices from American Prisons will also capture general readers who are interested in learning about a timely and often silenced reality of contemporary modern society **Research in Education**, 1974 **Adult offender education programs** John Phillips Conrad, 1981 **Resources in Education**, 2001-10 *Document Retrieval Index*, 1976 Inmate Graduation from an Academic College Program Arthur Kirk, 1992 Education Behind Bars National Institute of

Adult Continuing Education (England and Wales), 1998 Prisons are by definition closed and the sense of confinement can affect staff as much as inmates Not only is the work of educators in prisons at risk of being at best ignored at worst disparaged by the public at large but also its closed institutional nature has often resulted in the separation from the mainstream of adult education In reality many of the initiatives highlighted in recent years the development of basic skills the urgency of vocational education and its linkage to an element of social education special programmes for the educationally disadvantaged for example have been the bread and butter of prison educators for many years This sector has a wealth of expertise to offer a definitive statement to catch a variety of interested eyes rather than allow strict comparisons to be made Most of the chapters are concerned with a hardening of public attitudes towards the treatment of prisoners The rehabilitative services in prisons would seem to have taken more than their fair share of the international pulling back from the expenditure of public money and it is difficult to imagine private purses being opened for this purpose there is not a great deal of publicity or glamour to be found within prisons What emerges from this book is a sense of the writers enthusiasm whether it comes from their sense of social duty a personal sense of outrage a professional sense that students should be looked after or a liberal instinct for human rights **Correctional Bookshelf** United States. Bureau of Prisons. Library, 1977

Journal of Correctional Education, 1984 **The Penitentiary in Crisis** Mark Colvin, 1992-01-01 This is a case study of the violence and disorder that have become endemic in U S prisons The 1980 riot at the Penitentiary of New Mexico was one of the worst riots in prison history Thirty three inmates were killed and hundreds were injured The author demonstrates how this riot and the growing disorder that preceded it reflect important shifts in the organizational structure and philosophy of prison management in the U S The Penitentiary in Crisis analyzes how shifts in prisoner control strategies disrupted important power relations between inmates and staff and created disorder The author's experiences as a corrections counselor and planner in New Mexico corrections and his later role as principal researcher for the official investigation of the riot give him a unique perspective for understanding the riot and the prison's organization and history

Reading Prisoners Jodi Schorb, 2014-10-30 Shining new light on early American prison literature from its origins in last words dying warnings and gallows literature to its later works of autobiography expos and imaginative literature Reading Prisoners weaves together insights about the rise of the early American penitentiary the history of early American literacy instruction and the transformation of crime writing in the long eighteenth century Looking first at colonial America an era often said to devalue jailhouse literacy Jodi Schorb reveals that in fact this era launched the literate prisoner into public prominence Criminal confessions published between 1700 and 1740 she shows were crucial literacy events that sparked widespread public fascination with the reading habits of the condemned consistent with the evangelical revivalism that culminated in the first Great Awakening By century's end narratives by condemned criminals helped an audience of new writers navigate the perils and promises of expanded literacy Schorb takes us off the scaffold and inside the private world of

the first penitentiaries such as Philadelphia's Walnut Street Prison and New York's Newgate Auburn and Sing Sing She unveils the long and contentious struggle over the value of prisoner education that ultimately led to sporadic efforts to supply prisoners with books and education Indeed a new philosophy emerged one that argued that prisoners were best served by silence and hard labor not by reading and writing a stance that a new generation of convict authors vociferously protested The staggering rise of mass incarceration in America since the 1970s has brought the issue of prisoner rehabilitation once again to the fore Reading Prisoners offers vital background to the ongoing crucial debates over the benefits of prisoner education

The Correctional System, an Introduction Sue Titus Reid, 1981 *Offender Rehabilitation Issues* Charles B.A. Ubah, 2023-09-30 Most of the studies that discuss offender rehabilitation focus on the debate over whether prison based education programs work ignoring the important issues that these programs undertake Using a critical approach *Offender Rehabilitation Issues Critical Lessons for Criminology Criminal Justice and Public Policy* fills the gap by highlighting the offender rehabilitation programs that continue to divide scholars policy makers correctional practitioners students and the public This book demonstrates and reaffirms that offender rehabilitation programs and recidivism rates are important and critical social issues that do not exist in a vacuum are complex interacting social processes and issues with broader social economic legal and political environmental forces and pressures
