School Choice And Social Justice:

School Choice and Social Justice Harry Brighouse, 2000-02-17 School choice the leading educational reform proposal in the English speaking world today evokes extreme responses its defenders present it as the saviour its opponents as the death knell of a fair educational system Disagreement and vagueness about what constitutes social justice in education muddies the debate The author provides a new theory of justice for education arguing that justice requires that all children have a real opportunity to become autonomous persons and that the state use a criterion of educational equality for deploying educational resources Through systematic presentation of empirical evidence the author argues that existing schemes do not fare well against the criterion of social justice yet this need not impugn school choice Brighouse offers a school choice proposal that could implement social justice and explains why other essential educational reforms can be compatible with choice

School Choice and Social Justice Harry Brighouse, 2000 School Choice and Social Justice develops a liberal egalitarian theory of social justice in education Looking at the most recent empirical evidence it evaluates the justice of existing choice schemes and proposes a series of reforms

School Choice and Social Justice Harry Brighouse, 2003 School choice the leading educational reform proposal in the English speaking world today evokes extreme responses its defenders present it as the saviour its opponents as the death knell of a fair educational system Disagreement and vagueness about what constitutes social justice in education muddies the debate The author provides a new theory of justice for education arguing that justice requires that all children have a real opportunity to become autonomous persons and that the state use a criterion of educational equality for deploying educational resources Through systematic presentation of empirical evidence the author argues that existing schemes do not fare well against the criterion of social justice yet this need not impugn school choice Brighouse offers a school choice proposal that could implement social justice and explains why other essential educational reforms can be compatible with choice

School Choice and Social Controversy Stephen D. Sugarman, Frank R. Kemerer, 2011-12-01 In this important new volume distinguished legal and public policy scholars address issues that are critical to the successful drafting and implementation of school choice programs yet are usually overlooked in the choice debate They explore whether school choice is a threat or an opportunity to the many children who are largely deprived of choice today and they offer a variety of perspectives with some authors enthusiastic others more skeptical The book begins with a discussion of the types and extent of school choice what is known about its consequences and how politics has influenced its development It then focuses on three important public policy issues how school choice can revolutionize the way schools are financed what policy interventions are necessary to increase the supply of choice schools and how choice programs can be held accountable to parents and the state without undermining institutional autonomy The book addresses legal issues including whether public and private choice schools will be required to observe student and teacher rights generally recognized in traditional public

schools how the religion and speech clauses of the First Amendment may affect the participation of religious schools in school choice programs whether school choice will enhance or aggravate opportunities for racial justice what the implications of school choice are for teacher unions and collective bargaining and whether children with disabilities will be accommodated in school choice programs under federal disability law Throughout the book the authors offer recommendations for public policy development The contributors are Jeffrey Henig Robert Bulman and David L Kirp Paul T Hill Robert M O Neil Jesse H Choper Betsy Levin William G Buss and Laura F Rothstein Stephen D Sugarman is Agnes Roddy Robb Professor of Law at the University of California Berkeley Frank R Kemerer is Regents Professor and director of the Center for School Choice Policies and Outcomes Walter Feinberg, Christopher Lubienski, 2008-10-16 Perhaps no school reform has generated as much interest and controversy in recent years as the proposal to have parents select their children's schools Opponents of school choice fear that rolling back the government's role will lead to profit driven financial scandals sectarianism and increased class and racial isolation School choice advocates believe that state provision oversight and regulation stifle entrepreneurial creativity The contributors to this volume not only provide a clear assessment of the logic and evidence supporting the different sides of the debate but also unmask the assumptions about the relationship between markets government and educational achievement Their message is that neither markets nor government alone will guarantee freedom equality achievement or community If choice is to improve education and advance equality then educational policy cannot be placed on automatic and left to the free market Rather choice policy must be deliberately directed toward meeting these goals and this book shows how that could be accomplished Exploring the School Choice Universe Kevin G. Welner, Patricia H. Hinchey, William J. Mathis, Gary Miron, 2013-02-01 Exploring the School Choice Universe Evidence and Recommendations gives readers a comprehensive complete picture of choice policies and issues In doing so it offers cross cutting insights that are obscured when one looks only at single issue or a single approach to choice The book examines choice in its various forms charter schools home schooling online schooling voucher plans that allow students to use taxpayer funds to attend private schools tuition tax credit plans that provide a public subsidy for private school tuition and magnet schools and other forms of public school intra and interdistrict choice It brings together some of the top researchers in the field presenting a comprehensive overview of the best current knowledge of these important policies The questions addressed in Exploring the School Choice Universe are of most importance to researchers and policy makers What do choice programs actually do What forms do they take Who participates and why What are the funding implications What are the results of different forms of school choice on outcomes that matter like student performance segregation and competition effects Do they affect teachers working conditions Do they drive innovation The contents of this book offer reason to believe that choice policies can further some educational goals But they also suggest many reasons for caution If choice policies are to be evidence based a re examination is in order The information insights and

recommendations facilitate a more nuanced understanding of school choice and provide the basis for designing sensible school choice reforms that can pursue a range of desirable outcomes

Buchanan, 2017-03-14 The Wiley Handbook of School Choice presents a comprehensive collection of original essays addressing the wide range of alternatives to traditional public schools available in contemporary US society A comprehensive collection of the latest research findings on school choices in the US including charter schools magnet schools school vouchers home schooling private schools and virtual schools Viewpoints of both advocates and opponents of each school choice provide balanced examinations and opinions Perspectives drawn from both established researchers and practicing professionals in the U S and abroad and from across the educational spectrum gives a holistic outlook Includes thorough coverage of the history of traditional education in the US its current state and predictions for the future of each alternative school choice

School Choice, Equity and Social Exclusion in Europe John Sayer, Johan L. Vanderhoeven, 2000

Privatisation, Education and Social Justice Geoffrey Walford, 2017-10-02 Privatisation in and of education is a process that takes many different forms and is deeply controversial While the shift in who pays is certainly an important dimension of privatisation there have also been changes in the management provision and delivery of schooling In most of the economically developed world discussion about the privatisation of education is now several decades old and yet new forms of privatisation are still being developed and old forms being applied to new situations This book examines the concept and nature of privatisation and explores the impacts of privatisation in terms of social justice The authors extend various arguments about the processes and provide new research and critique Some believe that privatisation can lead to increasing social justice for the poor while others argue the exact opposite This volume contributes to theoretical conceptions of social justice and education as well as providing up to date research results This book was originally published as a special issue of Oxford Review of Education

School Choice in Europe Robert Maranto, Tommaso Agasisti, Rodrigo Queiroz e Melo, 2025-02-05 In this book leading experts present rigorous readable studies of education policies and school markets in 11 European countries from Ireland to Ukraine offering lessons for researchers policymakers and educators No other book fills this niche Americans debating whether parents choosing their children s schools will improve education would be wise to learn from a century of experience in Europe where most governments have long subsidized private schools including religious schools Likewise Europeans debating this issue may learn that there is a varied landscape of state private school arrangements around Europe and that the one specific to their country may be enriched by these experiences This volume brings together leading European researchers who present rigorous readable studies exploring how education markets work in 11 European countries from Ireland to Ukraine The chapters cover a range of topics including empirical examinations of the reasons Irish parents choose single sex education how a Ukrainian school improvised to serve students and parents in a war zone how school choice defused culture wars in countries as varied as the Netherlands and Estonia how the German left

and right embraced increased parental agency for different reasons the effectiveness of central regulations of autonomous British schools how changing subsidy levels affect demand for private schooling in Italy and Portugal the motivations of Hungarian parents choosing schools and the impacts of social class on schooling choices and policies in Sweden Germany and Spain This volume will be a key resource for academics researchers and advanced students of education education policy and leadership educational research economics and sociology The chapters included in this book were originally published in the Journal of School Choice

Key Issues in Education and Social Justice Emma Smith, 2018-06-14 This highly accessible book weaves together discussion of recent research findings policy developments and theoretical perspectives It provides a thought provoking and at times contentious introduction that will challenge students and teachers to look beyond the easy and glib rhetoric helping them understand the complexities of educating for a more equal world Shereen Benjamin Senior Lecturer in Primary Education University of Edinburgh This book is an introduction to issues of inequality and social justice how they relate to education systems and how education can be a force for positive societal change Drawing upon research policy and contemporary thinking in the field this second edition examines educational inequalities that exist today what lies behind them and what effects they have across society New to this edition Wider coverage on social inequalities in relation to income and wealth New chapters on childhood inequalities international issues in education and social justice and education inequalities in the USA A broader focus on how young people experience social justice that includes the experiences of young offenders This is essential reading for students on undergraduate education studies courses and related degree programmes that explore the relationship between education and society

School Choice Alan Wolfe, 2009-02-09 School choice has lately risen to the top of the list of potential solutions to America's educational problems particularly for the poor and the most disadvantaged members of society Indeed in the last few years several states have held referendums on the use of vouchers in private and parochial schools and more recently the Supreme Court reviewed the constitutionality of a scholarship program that uses vouchers issued to parents While there has been much debate over the empirical and methodological aspects of school choice policies discussions related to the effects such policies may have on the nation's moral economy and civil society have been few and far between School Choice a collection of essays by leading philosophers historians legal scholars and theologians redresses this situation by addressing the moral and normative side of school choice The twelve essays commissioned for a conference on school choice that took place at Boston College in 2001 are organized into four sections that consider the relationship of school choice to equality moral pluralism institutional ecology and constitutionality Each section consists of three essays followed by a critical response The contributors are Patrick McKinley Brennan Charles L Glenn Amy Gutmann David Hollenbach S J Meira Levinson Sanford Levinson Stephen Macedo John T McGreevy Martha Minow Richard J Mouw Joseph O Keefe S J Michael J Perry Nancy L Rosenblum Rosemary C Salomone Joseph P Viteritti Paul J Weithman and Alan Wolfe

Academies, Free Schools and Social Justice Geoffrey

Walford,2017-10-02 Academies were introduced by Labour in 2000 and first opened their doors in 2002 but during Labour's time in power the nature of the Academies changed At first they were designed to replace existing failing schools but by 2004 the expectation had widened to provide for entirely new schools where there was a demand for new places From 2010 under the coalition government two new types of Academy were introduced While the original Academies were based on the idea of closing poor schools and replacing them by dramatically redesigned and restructured ones the 2010 Academies Act allowed existing highly successful state maintained schools to apply to become Academies as well Further while Labour had restricted Academy status to secondary schools the Coalition extended it to primary and special schools The result is that there has been a dramatic increase in the number and diversity of Academies In addition to this the 2010 Act introduced Free Schools wherein groups of parents teachers or other sponsors can apply to start their own state maintained but officially independent schools These schools can either be completely new or the result of existing private schools applying to become state maintained The results of these changes remain under researched This book puts forward new research that examines the history and nature of Academies and Free Schools the processes by which they have come into existence and their effects in terms of social justice The contributors do not all speak with one voice but rather present a diversity of views on these important topics Included in the collection are the results of research on pupil outcomes and socio economic segregation issues of identity and ethos in church academies the problems of establishing free schools the history of policy on Academies and a comparison between Swedish independent schools and Academies and Free Schools This book was originally published as a special issue of Research Papers in Education

School Autonomy Reform and Social Justice in Australian Public Education Amanda Keddle,Katrina MacDonald,Brad Gobby,Jill Blackmore,Jane Wilkinson,Scott Eacott,Richard Niesche,2025-09-30 This book explores the social justice implications of school autonomy reform within the context of public education in Australia It is situated within and framed by global concerns about how public schools are navigating their autonomy within increasingly marketised education systems Drawing on extensive interviews with stakeholders and five in depth case study schools the book calls attention to the ways in which the intentions of school autonomy reform to offer schools more freedom to make their own decisions and manage their own responsibilities have become increasingly contained by the market imperatives of economic efficiency competition and public accountability driving state and national education systems We build on and enrich existing research in this area that highlights how market imperatives continue to exacerbate inequality within and between schools and their systems An essential read for researchers policy makers principals and teachers worldwide the book provides insight into how education systems can better support public schools to mobilise their autonomy in socially just ways

Middle-class School Choice in Urban Spaces Emma Rowe,2016-12-01 Middle class School Choice in Urban Spaces examines government funded public schools from a range of perspectives and scholarship in order to examine the historical political and economic conditions of public schooling within a globalized post

welfare context In this book Rowe argues that post welfare policy conditions are detrimental to government funded public schools as they engender consistent pressure in rearticulating the public school in alignment with the market produce tensions in serving the more historical conceptualizations of public schooling and are preoccupied by contemporary profit driven concerns Chapters focus on public schooling from different global perspectives with examples from Chile and the US to examine how various social movements encapsulate ideologies around public schooling Rowe also draws upon a rich five year ethnographic study of campaigns lobbying the Victorian State Government in Australia for a brand new local specific public school Critical attention is paid to the public school as a means to achieve empowerment and overcome discrimination and both a local and global lens are used to identify how parents choose the public school the values they attach to it and the strategies they use to obtain it Also considered however are how quality gaps distances and differences between public schools threaten to undermine the democracy of education as a means for individuals to be socially mobile and escape poverty This book makes an important contribution to our understanding of global social movements and activism around public education As such it will be of key interest to researchers academics and postgraduate students in the field of education specifically those working on school choice class and identity as well as educational geography School Choice and Student Well-Being A. Kelly, 2007-08-16 This review of research in school choice adapts Sen s theory of Capability developing a more complex theoretical framework for understanding education markets This gives those most affected by the perceived failure of public education a better explication of the tension between the rhetoric of public good and the reality of everyday disadvantage *Mathematics for Social Justice: Resources for the College Classroom* Gizem Karaali, Lily S. Khadjavi, 2019-07-09 *Mathematics for Social Justice* offers a collection of resources for mathematics faculty interested in incorporating questions of social justice into their classrooms The book begins with a series of essays from instructors experienced in integrating social justice themes into their pedagogy these essays contain political and pedagogical motivations as well as nuts and bolts teaching advice The heart of the book is a collection of fourteen classroom tested modules featuring ready to use activities and investigations for the college mathematics classroom The mathematical tools and techniques used are relevant to a wide variety of courses including college algebra math for the liberal arts calculus differential equations discrete mathematics geometry financial mathematics and combinatorics The social justice themes include human trafficking income inequality environmental justice gerrymandering voting methods and access to education The volume editors are leaders of the national movement to include social justice material into mathematics teaching Gizem Karaali is Associate Professor of Mathematics at Pomona College She is one of the founding editors of *The Journal of Humanistic Mathematics* and an associate editor for *The Mathematical Intelligencer* and *Numeracy* she also serves on the editorial board of the MAA s *Carus Mathematical Monographs* Lily Khadjavi is Associate Professor of Mathematics at Loyola Marymount University and is a past co chair of the Infinite Possibilities Conference She has served on the boards of Building

Diversity in Science the Barbara Jordan Bayard Rustin Coalition and the Harvard Gender and Sexuality Caucus The Consequences of Governance Fragmentation Michael R. Ford, 2017-09-06 The Consequences of Governance Fragmentation explains the ongoing legacy of Milwaukee's longstanding school voucher policy. The book details the evolution of school choice in Milwaukee, its impacts on student achievement, key externalities such as school closures and political conflict, and the ways in which the Milwaukee voucher program challenges traditional notions of accountability and democratic control. Michael R. Ford concludes that the voucher policy has fragmented public education to the point where true aggregate level progress of pupils is impossible and proposes an umbrella governance structure to bring funding and accountability equity to all publicly funded Milwaukee schools.

Handbook of Social Justice Interventions in Education Carol A. Mullen, 2021-08-27 The Handbook of Social Justice Interventions in Education features interventions in social justice within education and leadership from early years to higher education and in mainstream and alternative formal and informal settings. Researchers from across academic disciplines and different countries describe implementable social justice work underway in learning environments, organizations, programs, classrooms, communities, etc. Robust, dynamic, and emergent theory-informed applications in real-world places make known the applied knowledge base in social justice and its empirical, ideological, and advocacy orientations. A multiplicity of social justice-oriented lenses, policies, strategies, and tools is represented in this Handbook along with qualitative and quantitative methodologies. Alternative and conventional approaches alike advance knowledge and educational and social utility. To cover the field comprehensively, the subject, i.e., social justice education and leadership, is subdivided into four sections: Part I background provides a general background of current social justice literature; Part II schools addresses interventions and explorations in preK-12 schools; Part III education covers undergraduate and graduate education and preservice teacher programs, classrooms, and curricula in addition to teacher and student leadership in schools; Part IV leadership features educational leadership and higher education leadership domains from organizational change efforts to preservice leader preparation programs, classrooms, etc. Part V comparative offers interventions and explorations of societies, cultures, and nations. Assembling this unique material in one place by a leading cast will enable readers easy access to the latest research-informed interventionist practices on a timely topic. They can build on this work that takes the promise of social justice to the next level for changing global learning environments and workplaces.
