Scopes Creation On Trial:

Scopes R. M. Cornelius, John Morris, 1999 Although much has been written about the famous 1925 Monkey Trial in Dayton Tennessee most accounts are skewed in order to shed the best possible light on evolution This handy 48 page booklet however outlines the real facts surrounding the case For example far from being a dedicated teacher hounded by fundamentalists high school teacher John Scopes never taught evolution at Dayton but rather allowed himself to be a test case for those who wanted to see evolution taught in public schools Meticulously researched and illustrated this book sets the record straight **The Scopes Monkey Trial** Samuel Willard Crompton, 2010 After the passage of the Butler Act which made it unlawful for a state funded school in Tennessee to teach that humans evolved from lower organisms 24 year old high school teacher John Scopes intentionally violated the law Arrested and charged on May 5 1925 Scopes became the centerpiece in a trial that pitted two of the finest legal minds of the time against one another Prosecutor William Jennings Bryan s participation in the trial served as the capstone to his prior unsuccessful advocacy to cut off funds to schools that taught evolution Prominent trial attorney Clarence Darrow an agnostic spoke for the defense This case which was the first to be broadcast via radio was a critical turning point in the creation vs evolution controversy that continues today The Scopes Monkey Trial has since been fictionalized in a play a film and three television films all called *Inherit the Wind* The Scopes Monkey Trial Debate over Evolution explains how this pivotal court case shaped the way evolution and creationism are approached in classrooms Scopes R. M. Cornelius, John David Morris, 1995 *Summer for the Gods* Edward J Larson, 2008-07-31 The Pulitzer Prize winning history of the Scopes Trial and the battle over evolution and creation in America s schools In the summer of 1925 the sleepy hamlet of Dayton Tennessee became the setting for one of the twentieth century s most contentious courtroom dramas pitting William Jennings Bryan and the anti Darwinists against a teacher named John Scopes represented by Clarence Darrow and the ACLU in a famous debate over science religion and their place in public education That trial marked the start of a battle that continues to this day in cities and states throughout the country Edward Larson s classic *Summer for the Gods* winner of the Pulitzer Prize in History is the single most authoritative account of this pivotal event An afterword assesses the state of the battle between creationism and evolution and points the way to how it might potentially be resolved **The Scopes "Monkey" Trial** Sabrina Crewe, Michael V. Uschan, 2004-12-15 Looks at the historic 1925 trial in which a Tennessee high school biology teacher was accused of violating state law by teaching Darwin s theory of evolution and discusses the impact on America The Scopes Trial Jeffrey P. Moran, 2002-03-06 The Scopes trial shocked America Tennessee schoolteacher John Scopes brought the question of teaching evolution in schools to every dinner table and it remains an essential topic in any course on American History the History of Education and Religious History This volume s lively interpretative introduction provides an analysis of the trial and its impact on the moral fiber of the country and the educational system and examines the race and gender issues that shook out of the debate

The editor has excerpted the crucial exchanges from the trial transcript itself and includes these along with reactions to the trial taken from newspaper reports letters and magazine articles Telling political cartoons and evocative photographs add a colorful dimension to this collection while a chronology of events questions for consideration and a bibliography provide strong pedagogical support

The Trial of John T. Scopes Steven P. Olson,2003-12-15 Looks at the case of John Scopes a Tennessee schoolteacher who agreed in 1925 to be arrested for the crime of teaching evolution in order to provide a case to test the state laws forbidding such lessons

The Scopes Trial Stephanie Fitzgerald,2007 This book examines the events surrounding the Scopes trial and how that case became a pivotal event in the teaching of evolution in the public schools

The Other Side of the Scopes Monkey Trial Jerry Bergman,2023-10-26 The enormous amount of literature on the Scopes Trial focuses on the religious elements of the trial It almost totally ignored the importance of racism as taught in the text that Scopes used to teach biology Bryan was not concerned about evolution in general but specifically human evolution He believed that Darwin s theory as applied to humans encouraged the oppression of certain oppressed groups Taking evolution s philosophy to its logical conclusion meant justifying survival of the fittest in social matters This philosophy he learned from his extensive reading about WWI was a major factor influencing the Germans to fight in the first World War Furthermore Bryan believed the citizens of Tennessee had a right to determine what their children were taught in the public schools Another fact that is rarely mentioned is the main fossil evidence cited in the trial documents and the press in support of human evolution has been discredited by evolutionists including Neanderthal man Piltdown man Java man and Nebraska man Scopes was not a biology teacher but rather taught math His college degree was not in biology but law He was not put on the stand to testify in his trial probably because he never taught evolution and could not honestly answer questions about teaching it This book covers the so called trial of the century telling the real story of a sham brought on by the ACLU to further their political and anti Christian goals
