Research into early childhood transitions has become a field in its own right It is increasingly understood that a positive start in any new setting can influence the child s engagement sense of belonging well being progression in learning and agency and may be dependent on the insight of educators and families and yet there is no research methodology or research methods book dedicated to this growing field of study Including 27 chapters written by researchers from the UK New Zealand the USA Sweden Iceland Australia and Canada this handbook presents an overview of the field exploring its current debates reflects on its history and offers suggestions for the future of the field This book is an essential reference point for anyone studying or undertaking research into transitions in early childhood

Lairds, Land and Sustainability Jayne Glass, 2013-07-22 Scotland is at the heart of modern sustainable upland management Large estates cover vast areas of the

uplands with a long complex and emotive history of ownership and use In recent decades the Scottish uplands have increasingly been the arena for passionate debates over large scale land management issues Crucially what kinds of ownership and management will best deliver sustainable futures for upland environments and communities Although the globally unique dominance of private ownership remains a distinctive characteristic of Scotland s uplands increasing numbers of estates are now owned by environmental NGOs and local communities especially since the Land Reform Scotland Act of 2003 A decade after the passage of this landmark Act this book synthesises research carried out on a diverse range of upland estates by the Centre for Mountain Studies at Perth College University of the Highlands and Islands The findings from privately owned estates as well as those owned by communities charities and conservation groups will prove enlightening and relevant to upland managers policy makers and researchers across Britain and Europe With the Scottish Government promoting a vision of environmental sustainability and with the new diversity of ownerships and management now appearing this timely and topical book investigates the implications of these different types of land ownership for sustainable upland management

The SAGE Handbook of Nations and Nationalism Gerard Delanty, Krishan Kumar, 2006-06-14 With its list of distinguished contributors and its wide range of topics the handbook is surely destined to become an invaluable resource for all serious students of nationalism Michael Billig Professor of Social Sciences at Loughborough University and author of *Banal Nationalism* SAGE 1995 The persistence some would say revival of nationalism across the recent history of modernity in particular the past two decades has taken many scholars in the social sciences by surprise In response interest in the analysis of nationalism has increased and given rise to a great variety of new angles under which to study the phenomenon What was missing in the cacophony of voices addressing nationalism was a volume that brought them together and confronted them with each other This handbook does just that It deserves particular praise for the wide range of approaches and topic included and for the systematic attempt at studying nationalism as a phenomenon of our time not a remnant from the past Peter Wagner Professor of Social and Political Theory European University Institute and Professor of Sociology University of Warwick For students concerned with the contemporary study of nationalism this will be an invaluable publication The three fold division into approaches themes and cases is a very solid and sensible one The editors have commissioned essays from leading scholars in the field and this handbook provides the best single volume overview of contemporary nationalism John Breuilly Professor of Nationalism and Ethnicity London School of Economics Nationalism has long excited debate in political social and cultural theory and remains a key field of enquiry among historians anthropologists sociologists as well as political scientists It is also one of the critical media issues of our time There are however surprisingly few volumes that bring together the best of this intellectual diversity into one collection This Handbook gives readers a critical survey of the latest theories and debates and provides a glimpse of the issues that will shape their future Its three sections guide the reader through the theoretical approaches to this field of study its major themes from modernity to

memory migration and genocide and the diversity of nationalisms found around the globe The overall aim of this Handbook is to relate theories and debates within and across a range of disciplines illuminate themes and issues of central importance in both historical and contemporary contexts and show how nationalism has impacted upon and interacted with other political and social forms and forces This book provides a much needed resource for scholars in international relations political science social theory and sociology

The SAGE Handbook of Curriculum, Pedagogy and Assessment Dominic Wyse, Louise Hayward, Jessica Pandya, 2015-12-03 The research and debates surrounding curriculum pedagogy and assessment are ever growing and are of constant importance around the globe With two volumes containing chapters from highly respected researchers whose work has been critical to understanding and building expertise in the field The SAGE Handbook of Curriculum Pedagogy and Assessment focuses on examining how curriculum is treated and developed and its impact on pedagogy and assessment worldwide The Handbook is organised into five thematic sections considering The epistemology and methodology of curriculum Curriculum and pedagogy Curriculum subjects Areas of the curriculum Assessment and the curriculum The curriculum and educational policy The SAGE Handbook of Curriculum Pedagogy and Assessment's breadth and rigour will make it essential reading for researchers and postgraduate students around the world

The Oxford Handbook of Light in Archaeology Costas Papadopoulos, Holley Moyes, 2021-12-09 Light has a fundamental role to play in our perception of the world Natural or artificial lightscapes orchestrate uses and experiences of space and in turn influence how people construct and negotiate their identities form social relationships and attribute meaning to im material practices Archaeological practice seeks to analyse the material culture of past societies by examining the interaction between people things and spaces As light is a crucial factor that mediates these relationships understanding its principles and addressing illumination's impact on sensory experience and perception should be a fundamental pursuit in archaeology However in archaeological reasoning studies of lightscapes have remained largely neglected and understudied This volume provides a comprehensive and accessible consideration of light in archaeology and beyond by including dedicated and fully illustrated chapters covering diverse aspects of illumination in different spatial and temporal contexts from prehistory to the present Written by leading international scholars it interrogates the qualities and affordances of light in different contexts and im material environments explores its manipulation and problematises its elusive properties The result is a synthesis of invaluable insights into sensory experience and perception demonstrating illumination's vital impact on social cultural and artistic contexts
