Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons, 1918 Contains the 4th session of the 28th Parliament through the session of the Parliament British Travellers and the Encounter with Britain, 1450-1700 John Cramsie, 2015 Encounters with a multicultural Britain in the Tudor and Stuart periods written with an eye to debates about immigration and ethnicity in today's Britain This book recovers the encounter with a multicultural Britain by British travellers in the Tudor and Stuart periods When William Camden writing in the sixteenth century set out to write the history of Britannia he deliberately took to the roads to discover it first hand and those diverse cultures guided and informed his journeys Here John Cramsie offers original perspectives on Camden's multicultural Britain through the study of British travellers and their narratives We meet characters such as the Tudor traveller John Leland who intended to tell the peoples of England and Wales about themselves chronicle how they came to settle the towns villages valleys and mountaintops they called home record the marks they left in the landscape and celebrate the noble histories and cultures they created Dozens eventually hundreds of Britons shared the same passion to meet their island neighbours and relate their experiences The individuals studied in this book include actual as well as armchair travellers and those who blurred the boundaries between them Their letters diaries journals and histories range from the epic poignant and matter of fact to the exotic preposterous and hateful the sources include actual and imaginative narratives and those which combined both elements Travellers painted Britain with in Leland's words native colours that were rich vibrant and above all complex Their remarkable journeys are the story of how Britons over two centuries met interacted and attempted or not to understand one another Written with an eye to debates about immigration and ethnicity in today's Britain the book emphasizes the long history of making and remaking the island's cultural mosaic The encounter with Britain's native colours has been a burden of history and opportunity for millennia not simply for our own times JOHN CRAMSIE is Associate Professor Department of History Union College NY *Stepping Westward* Nigel Leask, 2020-02-27 *Stepping Westward* is the first book dedicated to the literature of the Scottish Highland tour of 1720-1830 a major cultural phenomenon that attracted writers and artists like Pennant Johnson and Boswell William and Dorothy Wordsworth Coleridge Scott Hogg Keats Daniell and Turner as well as numerous less celebrated travellers and tourists Addressing more than a century's worth of literary and visual representations of the Highlands the book casts new light on how the tour developed a modern literature of place acting as a catalyst for thinking

about improvement landscape and the shaping of British Scottish and Gaelic identities It pays attention to the relationship between travellers and the native Gaels whose world was plunged into crisis by rapid and forced social change At the book's core lie the best selling tours of Pennant and Dr Johnson associated with attempts to improve the intractable Gaidhealtachd in the wake of Culloden Alongside the Ossian craze and Gilpin's picturesque their books stimulated a wave of home tours from the 1770s through the romantic period including writing by women like Sarah Murray and Dorothy Wordsworth The incidence of published Highland Tours many lavishly illustrated peaked around 1800 but as the genre reached exhaustion the romantic Highlands were reinvented in Scott's poems and novels coinciding with steam boats and mass tourism but also rack-renting sheep clearance and emigration

In Pursuit of Civility Keith Thomas, 2018-06-05 Keith Thomas's earlier studies in the ethnography of early

modern England Religion and the Decline of Magic Man and the Natural World and The Ends of Life were all attempts to explore beliefs values and social practices in the centuries from 1500 to 1800 In Pursuit of Civility continues this quest by examining what English people thought it meant to be civilized and how that condition differed from being barbarous or savage Thomas shows that the upper ranks of society sought to distinguish themselves from their social inferiors by distinctive ways of moving speaking and comporting themselves and that the common people developed their own form of civility The belief of the English in their superior civility shaped their relations with the Welsh the Scots and the Irish and was fundamental to their dealings with the native peoples of North America India and Australia Yet not everyone shared this belief in the superiority of Western civilization the book sheds light on the origins of both anticolonialism and cultural relativism Thomas has written an accessible history based on wide reading abounding in fresh insights and illustrated by many striking quotations and anecdotes from contemporary sources The Oxford Companion to Scottish History Michael Lynch,2007 Searchable online reference covers more than 20 centuries of history and interpret history broadly covering areas such as archaeology climate culture languages immigration migration and emigration Multi authored entries analyze key themes such as national identity women and society living standards and religious belief across the centuries in an authoritative yet approachable way The A Z entries are complemented by maps genealogies a glossary a chronology and an extensive guide to further reading From title screen
