Global Perspectives on Digital Literature Torsa Ghosal, 2023-06-22. *Global Perspectives on Digital Literature: A Critical Introduction for the Twenty First Century* explores how digital literary forms shape and are shaped by aesthetic and political exchanges happening across languages and nations. The book understands global as a mode of comparative thinking and argues for considering various forms of digital literature: the popular, the avant garde, and the participatory as realizing and producing global thought in the twenty first century. Attending to issues of both political and aesthetic representation, the book includes a diverse group of contributors and a wide ranging corpus of texts composed in a variety of languages and regions including East and South Asia, parts of Europe, Latin America, North America, Australia, and Western Africa. The book's contributors adopt an array of interpretive approaches to make visible new connections and possibilities engendered by cross cultural encounters. Among other topics, they reflect on the shifting conditions for production and distribution of literature, participatory cultures, and technological affordances of Web 2.0, the ever changing dynamics of global and local forces, and fundamental questions such as: What do we mean when we talk about literature today? and What is the future of literature?

Walter Scott and the Greening of Scotland Susan Oliver, 2021-08-12. The work of Walter Scott, one of the most globally influential authors of the nineteenth century, provides us with a unique narrative of the changing ecologies of Scotland over several centuries and writes this narrative into the history of environmental literature. Farmed environments, mountains, moors, and forests, along with rivers, shorelines, islands, and oceans are explored, situating Scott's writing about shared human and nonhuman environments in the context of the emerging Anthropocene. Susan Oliver attends to changes and losses acting in counterpoint to the narratives of improvement that underpin modernization in land management. She investigates the imaginative ecologies of folklore and local culture. Each chapter establishes a dialogue between ecocritical theory and Scott as storyteller of social history. This is a book that shows how Scott challenged conventional assumptions about the permanency of stone and the evanescence of air; it begins with the land and ends by looking at the stars.

Perspectives of Black Histories in Schools LaGarrett J. King, 2019-11-01. Concerned scholars and educators since the early 20th century have asked questions regarding the viability of Black history in K-12 schools. Over the years, we have seen K-12 Black history expand as an academic subject which has altered research questions that deviate from whether Black history is important to know to what type of Black history knowledge and

pedagogies should be cultivated in classrooms in order to present a more holistic understanding of the group's historical significance. Research around this subject has been stagnated typically focusing on the subject's tokenism and problematic status within education. We know little of the state of K-12 Black history education and the different perspectives that Black history encompasses. The book *Perspectives on Black Histories in Schools* brings together a diverse group of scholars who discuss how K-12 Black history is understood in education. The book's chapters focus on the question: what is Black history and explores that inquiry through various mediums including its foundation, curriculum, pedagogy, policy, and psychology. The book provides researchers, teacher educators, and historians an examination into how much K-12 Black history has come and yet how long it still needed to go.

Critical Perspectives On Educational Leadership John Smyth, 2005-08-12 This book is an edited collection of original papers which challenge in a very direct manner the dominant behaviourist and functionalist views that have come to entrap those who live, work, and conduct research in the areas of educational leadership and focusing instead on the structures and processes within schools as organisations that frustrate, distort, and ultimately stifle educative relationships. The writers provide a much needed way of reconceptualising both thought and action in so-called acts of educational leadership.

Nathan Scott's Literary Criticism and Fundamental Theology William D. Buhrman, 2006 Nathan Scott's *Literary Criticism and Fundamental Theology* reexamines the pioneering contribution of Nathan A. Scott Jr to the field of theology and literature. It both recalls Scott's achievement and suggests its continuing value by focusing on the question of Scott's method. Rather than following the traditional interpretation of Scott as a literary critic employing Paul Tillich's theology of culture, this book proposes that Scott's work is best understood as a form of fundamental theology. In doing so, it suggests that Scott's work models ways in which literary texts may be appropriately incorporated into theological discourse.

Publisher's website *Global Perspectives on Korean Literature* Wook-Dong Kim, 2019-07-31 This book explores Korean literature from a broadly global perspective from the mid 9th century to the present with special emphasis on how it has been influenced by, as well as it has influenced, literatures of other nations. Beginning with the Korean version of the King Midas and his ass's ears tale in the Silla dynasty, it moves on to discuss Ewa, what might be called the first missionary novel about Korea written by a Western missionary, W. Arthur Noble. The book also considers the extent to which, in writing fiction and essays, Jack London gained grist for his writing from his experience in Korea as a Russo-Japanese War correspondent. In addition, the book explores how modern Korean poetry, fiction, and drama, despite differences in time and space, have actively engaged with Western counterparts. Based on *World Literature*, which has gained slow but prominent popularity all over the world, this book argues that Korean literature deserves to be part of the Commonwealth of Letters.

Intermediate and Advanced Learners: Perspectives for Secondary English Language Education Grit Alter, Thorsten

Merse, 2023-11-27 Der didaktische Wert von Picturebooks für den Englischunterricht in der Grundschule gilt als unumstritten. Jedoch gibt es in Forschung und Unterrichtspraxis derzeit kaum Anstöße, wie der Transfer dieses vermeintlich kindlichen Literaturmediums in die Sekundarstufe gelingen kann. Dieser Band legitimiert Picturebooks als komplex angelegte Textform, die sich auch mit fortgeschrittenen Lernenden zu kompetenz- und inhaltsorientierter Arbeit im Englischunterricht anbietet. Die im Band versammelten konzeptuellen und empirischen Perspektiven zeigen angehenden und praktizierenden Lehrkräften konkret auf, wie vielfältig Picturebooks den Unterricht bereichern können. Eine große Bandbreite praktischer Beispiele verdeutlicht ihr Potenzial für den Englischunterricht der Sekundarstufen von der Förderung verschiedener Literacies und literarischen Lernens bis hin zur Fokussierung von Themen wie Umwelt, sozialer Gerechtigkeit oder kultureller Diversität.

The Poetics of Space and Place in Scottish Literature Monika Szuba, Julian Wolfreys, 2019-04-01 This book addresses the poetics of space and place in Scottish literature. Focusing chiefly on twentieth and twenty-first century texts with acknowledgement of historical and philosophical contexts, the essays address representation, narrative form, the work of the poetic perception and experience. Major genres and forms are discussed, and authors as diverse as George Mackay Brown, Kathleen Jamie, Ken McLeod, and Kei Miller are presented through theoretically informed, historically contextualized close readings. Additionally, considering the role of dialect and region in the poetry and fiction of modern Scotland, the volume argues for an appreciation of the cultural diversity of Scottish writers while highlighting the overarching presence of a connection between self and world, subject and place within Scottish literature. *The Concept of Community from a Global Perspective*, 2024-05-21

This volume presents essays analysing the ambivalent history of the globally influential political and social concept of community and the paradigms it has engendered in academia and politics.
