contemporary cases of nationalist crisis and constitutional lawyers from states which are attempting to facilitate the political expression of national identity through developments in federalism devolution and the protection of minority rights The aim is to explore to what extent existing legal mechanisms permit a flexible engagement with and accommodation of the aspirations of national and ethnic groups It would appear that a heightened level of fluidity in the interaction and exchange of normative standards now exists in the relationship between international and domestic law as both types of system confront the challenge which national identity continues to constitute As this process marks a renewed preparedness on the part of legal systems to expand imaginatively to meet current problems it is hoped that this collection will highlight opportunities for an ongoing process of development in this complex and troubled area *Anglo-Scottish Relations, from 1900 to Devolution and Beyond* William L Miller, 2005-12-22 These essays trace the changing relationship between Scotland and England following the unifying reign of Queen Victoria through the debates over devolution and into a future where the Union will be under continuing pressure to evolve Historians social scientists and lawyers investigate the personal social financial and constitutional tensions between the Scots and the English both before and after devolution and ask if Scots and English have been driven apart or brought more closely together by this reconstruction of the Union Building on its companion *Anglo Scottish Relations from 1603 to 1900* 0 19 726330 5 this volume provides wideranging insights into what some may regard as unfinished business
