The Chinese and the Iron Road Gordon Chang,Shelley Fisher Fishkin,2023-05-25 Essays examining the Chinese worker experience during the construction of America s Transcontinental Railroad The completion of the transcontinental railroad in May 1869 is usually told as a story of national triumph and a key moment for American Manifest Destiny The Railroad made it possible to cross the country in a matter of days instead of months paved the way for new settlers to come out west and helped speed America s entry onto the world stage as a modern nation that spanned a full continent It also created vast wealth for its four owners including the fortune with which Leland Stanford would found Stanford University some two decades later But while the Transcontinental has often been celebrated in national memory little attention has been paid to the Chinese workers who

made up 90 percent of the workforce on the Western portion of the line The Railroad could not have been built without Chinese labor but the lives of Chinese railroad workers themselves have been little understood and largely invisible This landmark volume explores the experiences of Chinese railroad workers and their place in cultural memory The Chinese and the Iron Road illuminates more fully than ever before the interconnected economies of China and the US how immigration across the Pacific changed both nations the dynamics of the racism the workers encountered the conditions under which they labored and their role in shaping both the history of the railroad and the development of the American West Praise for The Chinese and the Iron Road This timely and essential volume preserves the humanity of the often ignored and forgotten immigrant worker while also uncovering just how important Chinese American railroad workers were in the making of America and its place in the world Erika Lee author of The Making of Asian America Gordon H Chang and Shelley Fisher Fishkin s meticulously researched and beautifully written book fills a critical gap in our nation s history The Chinese and the Iron Road brings to life the stories of workers who defied incredible odds and gave their lives to unite these states into a nation David Henry Hwang Tony Award winning playwright of The Dance and the Railroad and M Butterfly Destined to become the go to resource about Chinese railroad workers in the American West Madeline Hsu author of The Good Immigrants How the Yellow Peril Became the Model Minority Deeply researched and richly detailed The Chinese and the Iron Road brings to life the Chinese immigrants whose work was essential to the railroad s construction Thomas Bender author of A Nation Among Nations America s Place in World History

Col. William N. Selig, the Man Who Invented Hollywood Andrew A. Erish, 2012-03-01 All histories of Hollywood are wrong Why Two words Colonel Selig This early pioneer laid the foundation for the movie industry that we know today Active from 1896 to 1938 William N Selig was responsible for an amazing series of firsts including the first two reel narrative film and the first two hour narrative feature made in America the first American movie serial with cliffhanger endings the first westerns filmed in the West with real cowboys and Indians the creation of the jungle adventure genre the first horror film in America the first successful American newsreel made in partnership with William Randolph Hearst and the first permanent film studio in Los Angeles Selig was also among the first to cultivate extensive international exhibition of American films which created a worldwide audience and contributed to American domination of the medium In this book Andrew Erish delves into the virtually untouched Selig archive at the Academy of Motion Picture Arts and Sciences Library to tell the fascinating story of this unjustly forgotten film pioneer He traces Selig s career from his early work as a traveling magician in the Midwest to his founding of the first movie studio in Los Angeles in 1909 to his landmark series of innovations that still influence the film industry As Erish recounts the many accomplishments of the man who first recognized that Southern California is the perfect

place for moviemaking he convincingly demonstrates that while others have been credited with inventing Hollywood Colonel Selig is actually the one who most deserves that honor The Scrapbook John M'Diarmid,1824 **The Case of Peter Rabbit** Margaret Mackey,2003-09-02 Using the example of The Tale of Peter Rabbit by Beatrix Potter to explore the impact of new media and technologies on how children learn about stories and reading this book investigates nearly 100 re tellings in a variety of media some authorized by Potter s publisher Frederick Warne some unauthorized It looks at the implications of converging developments in children s literature new media and technologies now readily available to children leading to new conventions and protocols of storytelling changing commercial pressures on publishers and an emphasis on producing commodities associated with books and videos saturation marketing which targets children and adults in different ways and a cultural emphasis on the fragmentation adaptation and re working of texts The Tale of Peter Rabbit is now available as picture book chapter book board and bath book pop up video in versions that adhere to the original story and versions that deviate radically to include new adventures or Christian messages ballet CD ROM computer disc audio tape and filmstrip The character of Peter Rabbit may be purchased as toy clothing dish ornament wallpaper food paper doll and much else His story and that of his author Beatrix Potter reappear in fragmented form in other books for children in a murder mystery for adults and in a graphic novel for teenagers This book raises questions about the impact of these developments on young readers
