before CGI a time when every photon mattered and the lighting of a set served a grander purpose than simply rendering its subjects visible Edited by Alain Silver and James Ursini the duo behind numerous critically acclaimed studies of other aspects of noir this anthology presents a series of essays that examine the visual style of the filmmakers of cinema s classic period Some focus on individual pictures or directors others discuss elements of style or sub groups of movies within the movement All are sharply focused on what makes the noir phenomenon unique in American and global cinematic history Aside from highlighting the innovative work of its editors and their late colleague Robert Porfirio Film Noir Light and Shadow also shares its light with a bevy of contributors who have written and edited their own books on the subject a list of luminaries that includes Sheri Chinen Biesen Shannon Clute and Richard Edwards Julie Grossman Delphine Letort Robert Miklitsch R Barton Palmer Homer Pettet Marlisa Santos Imogen Sara Smith and Tony Williams As befits the topic this volume is lavishly illustrated with 500 images that capture the richness and breadth of the classic period s imagery making it an ideal companion for students of the genre film historians sprocket fiends and the retrospectively inclined *The Long Shadow of Antiquity* Gregory S. Aldrete, Alicia Aldrete, 2019-02-07 A vivid exploration of the many ways the classical world remains relevant today this is a passionate justification of why we continue to read about and study the lives and works of the ancient Greeks and Romans Challenging the way the phrase That s just ancient history is used to dismiss something as being irrelevant Greg and Alicia Aldrete demonstrate just how much ancient Greece and Rome have influenced and shaped our world today in ways both large and small From the more commonly known influences on politics law literature and timekeeping through to the everyday rituals and routines we take for granted when we exercise dine marry and dress we are rooted in the ancient world Even the political upheaval celebrity obsession and blurring of public and private boundaries that we see in current news betray ancient characteristics now brought to the fore here in a new final chapter If you have ever wondered how far exactly we still walk in the footsteps of the ancients or wanted to understand how study of the classical world can inform and explain our lives today this is the book for you **In Capra's Shadow** Ian Scott, 2014-10-17 Because screenwriter Robert Riskin spent most of his career collaborating with legendary Hollywood director Frank Capra Riskin s own unique contributions to film have been largely overshadowed With five Academy Award nominations to his credit for the monumental films Lady for a Day Mr Deeds Goes to Town You Can t Take It with You Here Comes the Groom and It Happened One Night for which he won the Oscar Riskin is often imitated but rarely equaled In Capra s Shadow The Life and Career of Screenwriter Robert Riskin is the first detailed critical examination of the Hollywood pioneer s life and work In addition to being one of the great screenwriters of the classic Hollywood era Riskin was also a producer and director founding his own film company and playing a crucial role in the foundation of the Screen Writers Guild During World War II Riskin was one of the major forces behind propaganda filmmaking He worked in the Office of War Information and oversaw the distribution and later production of films and documentaries in foreign theaters He was interested in showing the rest of

the world more than just an idealized version of America he looked for films that emphasized the spiritual and cultural vibrancy within the U S making charity faith and generosity of spirit his propaganda tools His efforts also laid the groundwork for a system of distribution channels that would result in the dominance of American cinema in Europe in the postwar years Riskin s postwar work included his production of the 1947 film *Magic Town* the tale of a marketing executive who discovers the perfect American small town and uses it for polling What Riskin created onscreen is not simply a community stuck in an antiquarian past rather the town of Grandview observes its own traditions while at the same time confronting the possibilities of the modern world and the challenges of postwar America Author Ian Scott provides a unique perspective on Riskin and the ways in which his brilliant pithy style was realized in Capra s enduring films Riskin s impact on cinema extended far beyond these films as he helped spread Hollywood cinema abroad and articulated his vision of a changing America

The Visual World of Shadows Roberto Casati,Patrick Cavanagh,2023-12-26 How the perception of shadows studied by vision scientists and visual artists reveals the inner workings of the visual system In *The Visual World of Shadows* Roberto Casati and Patrick Cavanagh examine how the perception of shadows as studied by vision scientists and visual artists reveals the inner workings of the visual system Shadows are at once a massive problem for vision which must distinguish them from objects or material features of objects and a resource signaling the presence location shape and size of objects Casati and Cavanagh draw up an inventory of information retrievable from shadows showing their amazing variety They present an overview of the visual system distinguishing between measurement and inference They discuss the shadow mission the work done by the visual brain to parse and perhaps discard the information from shadows shadow ownership the association of a shadow with the object that casts it shadow labeling the visual system s ability to tell shadows from nonshadows and the shadow concept our knowledge about shadows as a category Casati and Cavanagh then apply the theoretical apparatus they have developed for shadows to other phenomena illumination reflection and transparency Finally they examine the art of the shadow paying tribute to artists exploration of shadow analyzing a series of artworks reproduced in color from a rich and fascinating art historical corpus
