

THE LONG ROAD TO RECOVERY

Esther is a single mother from northern Kenya with four children. Her husband died a year ago, and now the small amount of sorghum she grows is the only way to provide for her family.

However after three years of scarce rains, there is barely enough to feed the family, and her two-year-old son, Akusi, is now moderately wasted.

DAY 1

After assessing Akusi, a visiting health worker refers him to a supplementary feeding programme (SFP) for treatment. The SFP is 10 miles away, and they can't visit until the next Wednesday when the SFP is open.

DAY 3

Increasingly worried about Akusi, Esther makes the long journey to the SFP. Esther's four-year-old daughter cares for the other children.

"I take Akusi for treatment, I don't be able to harvest my crops... how will I feed my family?"

AT THE SFP

By the time they have reached the SFP Akusi's condition has deteriorated to severe wasting and he can't be treated at the SFP. He needs to be treated at the outpatient treatment facility (OTF) instead, which is six miles away from Esther's home.

"Six miles away from my home? We already walked 10 miles to get there! We won't have time to go today..."

DAY 5

Esther is unable to take Akusi for several days as her eldest child is sick. When the older child recovers, Esther and Akusi make the six mile journey from their home to the OTF.

AT THE OTF

Akusi's medical assessment shows he has a high fever and is unable to eat the ready-to-use therapeutic food (RUTF). This means he needs supervised care at the hospital in the next town, 25 miles away. Esther will need to accompany him there and live for about seven days.

DAY 9

Esther returns home with Akusi. She is worried about who will look after her other children while she is at the hospital and does not have enough money to pay for transport to the neighbouring town.

DAY 11

A kind neighbour says she will look after the children while Akusi is in hospital and Esther is able to take out a loan for transport.

AT THE HOSPITAL

Akusi is treated over six days, his condition stabilises and his appetite returns. Esther is advised she will need to bring him to the OTF every week, making the 12 mile round trip journey, until he has fully recovered. On average, a child needs to visit the OTF weekly for six consecutive weeks in order to recover.

DAY 21

Esther returns home to find her crops ruined and one of her children sick with malaria. With a loss of income and other children who urgently need her attention and care, it is impossible for Esther to take Akusi to the OTF.

2 MONTHS LATER

Akusi is still severely wasted and sick - he is re-admitted to the hospital and the winding, unending road to recovery continues.

Millions of mothers and wasted children like Esther and Akusi are forced to navigate this system every year. It is a system built to work for UN agencies, not for them, and the unnecessary hardship they face is incalculable.

They need our help.

that Ed leaked information to the CIA about the radical nature of the car's technology leading to the intervention of the U S and Russian governments and indirectly to the murders in Siberia Second that Ed's irresponsible actions during the race were the reasons that the environmentally friendly technology in his entry has not been made available to the world and that he is to blame for some of the climatic change that will take place in the future Third that Ed was lying about the innovation in the car It was actually nothing new and was in fact fully developed in Nazi Germany during World War II and then held off the market by oil interests Finally that his secret liaison with his navigator showed a reckless disregard for his wife and young daughter and affected his judgment While these accusations appeared to be absurd we knew we had to sort out Thurman's wild claims before we could write an objective report of the around the world race We discovered that there was some truth among these charges a story hidden within a story We became intrigued with our findings It turned out that the race was a minor part of the challenges Ed faced Our research had turned up a convoluted love story that alone would have made it difficult for Ed to have followed a different course of action You can decide for yourself whether a less disastrous outcome would have been possible if he had made different decisions Ed and Janet Howle www.thelongroadtoParis.com
