Imperial Delusions Carl Boggs, 2005 In this hard hitting critique Carl Boggs argues that the United States is dominated by a new militarism one that has become more potent and menacing since 9 11 He skillfully explores the origins and development of this new militarism and show its devastating effects on American society

**Unhitched** Richard Seymour, 2013-01-16 Irascible and forthright Christopher Hitchens stood out as a man determined to do just that In his younger years a career minded socialist he emerged from the smoke of 9 11 a neoconservative Marxist an advocate of America s invasion of Iraq filled with passionate intensity Throughout his life he played the role of universal gadfly whose commitment to the truth transcended the party line as well as received wisdom But how much of this was imposture In this highly critical study Richard Seymour casts a cold eye over the career of the Hitch to uncover an intellectual trajectory determined by expediency and a fetish for power As an orator and writer Hitchens offered something unique and highly marketable But for all his professed individualism he remains a recognizable historical type the apostate leftist Unhitched presents a rewarding and entertaining case study one that is also a cautionary tale for our times

Defeat and Division launches a definitive new account of France in the Second World War In this first volume Douglas Porch dissects France s 1940 collapse the dynamics of occupation and the rise of Charles de Gaulle s Free France crusade culminating in the November 1942 Allied invasion of French North Africa He captures the full sweep of France s wartime experience in Europe Africa and beyond from soldiers and POWs to civilians in arms colonial subjects and foreign refugees He recounts France s struggles to reconstruct military power within the context of a global conflict with its armed forces shattered into warring factions and the country under Axis occupation Disagreements over the causes of the 1940 debacle and the subsequent requirement for the armistice mirrored long standing fractures in politics society and the French military itself as efforts to reconstitute French military power crumbled into Vichy collaboration De Gaulle s exile resistance Alsace Moselle occupation struggles and a scuffle for imperial supremacy      **Trade in War** Mariya Grinberg,2025-08-15

Trade in War is an urgent insightful study of a puzzling wartime phenomenon states doing business with their enemies Trade between belligerents during wartime should not occur After all exchanged goods might help enemies secure the upper hand on the battlefield Yet as history shows states rarely choose either war or trade In fact they frequently engage in both at the same time To explain why states trade with their enemies Mariya Grinberg examines the wartime commercial policies of major powers during the Crimean War the two World Wars and several post 1989 wars She shows that in the face of two competing imperatives preventing an enemy from increasing its military capabilities and maintaining its own long term security through economic exchange states at war tailor wartime commercial policies around a product s characteristics and war expectations If a product s conversion time into military capabilities exceeds the war s expected length then trade in the product can occur since the product will not have time to affect battlefield outcomes If a state cannot afford to jeopardize the revenue provided by the traded product trade in it can also occur Grinberg s findings reveal that economic cooperation can thrive even in the most hostile of times and that interstate conflict might not be as easily deterred by high levels of economic interdependence as is commonly believed Trade in War compels us to recognize that economic ties between states may be insufficient to stave off war      **First Concurrent Resolution on the Budget Fiscal Year 1977** United States.
