A Long Time Dying Olga Masters, 1985 Collection of stories about Cobargo NSW in 1935 very brief mention of Aborigines from Wallaga Lake including Wallaga Wal

The Metaphysics of Death John Martin Fischer, 1993 This collection of seventeen essays deals with the metaphysical as opposed to the moral issues pertaining to death For example the authors investigate among other things the issue of what makes death a bad thing for an individual if indeed death is a bad thing This issue is more basic and abstract than such moral questions as the particular conditions under which euthanasia is justified if it is ever justified Though there are important connections between the more abstract questions addressed in this book and many contemporary moral issues such as euthanasia suicide and abortion the primary focus of this book is on metaphysical issues concerning the nature of death What is the nature of the harm or bad involved in death If it is not pain what is it and how can it be bad Who is the subject of the harm or bad if the person is no longer alive how can he be the subject of the bad An if he is not the subject who is Can one have harm with no subject When does the harm take place Can a harm take place after its subject ceases to exist If death harms a person can the harm take place before the death occurs If death can be a bad thing would immortality be a desirable alternative This family of questions helps to frame the puzzle of why and how death is bad Other subjects addressed include the Epicurean view that death is not a misfortune for the person who dies the nature of misfortune and benefit the meaningfulness and value of life and the distinction between the life of a person and the life of a living creature who is not a person There is an extensive bibliography that includes science fiction treatments of death and immortality

Life, Death, and Meaning David Benatar, 2016-03-28 Do our lives have meaning Should we create more people Is death bad Should we commit suicide Would it be better to be immortal Should we be optimistic or pessimistic Since Life Death and Meaning Key Philosophical Readings on the Big Questions first appeared David Benatar's distinctive anthology designed to introduce students to the key existential questions of philosophy has won a devoted following among users in a variety of upper level and even introductory courses While many philosophers in the continental tradition those known as existentialists have engaged these issues at length and often with great popular appeal English speaking philosophers have had relatively little to say on these important questions Yet the methodology they bring to philosophical questions can and occasionally has been applied usefully to existential questions This volume draws together a representative sample of primarily English speaking philosophers' reflections on life's big questions divided into six sections covering 1 the meaning of life 2 creating people 3 death 4 suicide 5 immortality and 6 optimism and pessimism These key readings are supplemented with helpful introductions study questions and suggestions for further reading making the material accessible

and interesting for students In short the book provides a singular introduction to the way that philosophy has dealt with the big questions of life that we are all tempted to ask 100 Books You Must Read Before You Die [volume 2] Oscar

Twain (Saumuel Clemens),2021-01-01 Life on the Mississippi is Twain s happiest book Written early in his career before the difficulties of his personal life had a chance to color his perception and filled with reminiscent celebration of his time as a boy and man as an apprentice and as a Mississippi steamboat pilot it is a lively affectionate tribute hardly muted by the fact that the world of the romantic pilots of the Mississippi had disappeared forever during the Civil War and the development of the railroads *On Our Way* Robert Kastenbaum,2004-05-20 How do our ideas about dying influence the way we live Life has often been envisioned as a journey the river of time carrying us inexorably toward the unknown country and in our day we increasingly turn to myth and magic ritual and virtual reality cloning and cryostasis in the hope of eluding the reality of the inevitable end In this book a preeminent and eminently wise writer on death and dying proposes a new way of understanding our last transition A fresh exploration of the final passage through life and perhaps through death his work deftly interweaves historical and contemporary experiences and reflections to demonstrate that we are always on our way Drawing on a remarkable range of observations from psychology anthropology religion biology and personal experience Robert Kastenbaum re envisions life s forward looking progress from early childhood bedtime rituals to the many small rehearsals we stage for our final separation Along the way he illuminates such moments and ideas as becoming a corpses person going down to earth or up in flames respecting or abusing and eating the dead coping with too many dead conceiving and achieving a good death undertaking the journey of the dead and learning to live through the scrimmage of daily life fully knowing that Eternity does not really come in a designer flask Profound insightful often moving this look at death as many cultures await it or approach it enriches our understanding of life as a never ending passage
