## Long View Of History:

**The Long View** Richard Fisher,2023-03-30 A wide ranging and thought provoking exploration of the importance of long term thinking Humans are unique in our ability to understand time able to comprehend the past and future like no other species Yet modern day technology and capitalism have supercharged our short termist tendencies and trapped us in the present at the mercy of reactive politics quarterly business targets and 24 hour news cycles It wasn't always so In medieval times craftsmen worked on cathedrals that would be unfinished in their lifetime Indigenous leaders fostered intergenerational reciprocity And in the early twentieth century writers dreamed of worlds thousands of years hence Now as we face long term challenges on an unprecedented scale how do we recapture that far sighted vision Richard Fisher takes us from the boardrooms of Japan home to some of the world's oldest businesses to European laboratories where scientists work as custodians on centuries long experiments He examines the psychological biases that discourage the long view and talks to the growing number of people from the worlds of philosophy technology science and the arts who are exploring smart ways to overcome them How can we learn to widen our perception of time and honour our obligations to the lives of those not yet born

Taking the Long View David Steinmetz,2011-10-05 Taking the Long View argues in a series of engagingly written essays that remembering the past is essential for men and women who want to function effectively in the present for without some knowledge of their own past neither individuals nor institutions know where they have been or where they are going The book illustrates its thesis with tough minded examples from the Church's life and thought ranging from more abstract problems like the theoretical role of historical criticism to such painfully concrete issues as the commandment of Jesus to forgive unforgivable wrongs

**The Long View** Hans Tendam,2010-01-27 Strategic thinking rather than strategic planning is the key to sustainable success Strategy involves a broader look a deeper analysis and a longer time frame Strategic thinking is about considering the consequences of developments and possible developments of actions and possible actions on the success prosperity and continuity of people organizations or communities And it is about the kind of success prosperity and continuity that we seek This study explores strategic thinking on the basis of strategy literature and cognitive

**Theology and the Drama of History** Ben Quash, 2005-08-11 How can theology think and talk about history Building on the work of the major twentieth century theologian Hans Urs von Balthasar as well as entering into sharp critical debate with him this book sets out to examine the value and the potential of a theodramatic conception of history By engaging in dialogue not only with theologians and philosophers like von Balthasar Hegel and Barth but with poets and dramatists such as the Greek tragedians Shakespeare and Gerard Manley Hopkins the book makes its theological principles open and indebted to literary forms and seeks to show how such a theology might be applied to a world intrinsically and thoroughly historical By contrast with theologies that stand back from the contingencies of history and so fight shy of the uncertainties and openness of Christian existence this book s theology is committed to taking seriously the God who works in time
