modern day Sudan to the recent war in Iraq The twentieth century was by far the world's most destructive century with two global wars marking the first half of the century and the constant fear of nuclear annihilation haunting the second half Throughout this book treats warfare as a function of larger political cultural social and economic issues and includes discussion of the alliances that led to the outbreak of the First World War the First World War **The Longman**

Companion to European Nationalism 1789-1920 Raymond Pearson, 2014-09-25 A highly topical analysis of European Nationalism from the French Revolution through to the aftermath of the First World War when the nationalist issues and problems that dominate the political landscape of our own time were already fully established Covering an enormous range of peoples from the Icelanders to the Gypsies from Brittany to Wallachia the book presents a wealth of historical geopolitical information unavailable elsewhere Essential as a reference work it also provides a unique opportunity to survey systematically a crucial but fragmented subject in its full European context For historians political scientists departments of European studies and general readers [A Traditionalist History of the Great War, Book III](#) Alexander Wolfheze, 2025-03-13 This third volume of the series A Traditionalist History of the Great War provides an in depth reassessment of the events leading up to the outbreak of the First World War It views the systemic failure of Great Power diplomacy as the result of an increasing existential incompatibility and growing power imbalance between the Modernity aligned Triple Entente and the Tradition aligned Germanic empires The final breakdown of international diplomacy in 1914 was preceded by major crises and peripheral wars that shaped not only the alignment of the Great Powers but also the mindset of their leaders who found themselves facing historical forces beyond their control This book reconstructs the crises and wars of the pre war years as well as the military calculations of July 1914 showing how they are consistent with an overall geopolitical trajectory that inexorably led to the final showdown between the forces of rising Modernity and waning Tradition **The Routledge**
