Congress. House. Committee on Science and Technology. Subcommittee on Space Science and Applications, 1975 *Love and Quasars* Paul Wallace, 2019-10-01 Like many Americans Paul Wallace grew up as a church going Christian Also like many he lost his faith when he started taking science classes in college He just didn't see how the rigorous method demanded by science could coexist with the belief in things unseen required by Christianity But as a working astrophysicist he started to wonder if he'd gotten something wrong Slowly and deliberately he investigated the claims of Christianity while also acknowledging that science too has limits Ultimately he came back to Christianity In *Love and Quasars* Wallace shows how faith and science are pitted against one another and he explains how the standard ways of

reconciling them don't work. He then proposes a reasonable thoughtful approach that will appeal to Christians and students of science alike. Readable and wise. Love and Quasars is an indispensable resource for people who wonder if faith and science can coexist. *1986 NASA authorization* United States. Congress. House. Committee on Science and Technology.
