Life'S Like That Jerry McKee Bullock,2012-11-29 Lifes Like That was born when I was having trouble getting clients at the Family Counseling Center That is a fancy name that came from my family counseling career I thought I needed to get some ads in the local newspaper That led to my meeting Mr Rowe Ray the managing editor of the San Marcos Daily Record I simply wanted to explore possibilities but ended with an invitation to write a weekly column for the newspaper I can honestly say I never broke my word on confidentiality i e everything we talked about stayed in the Center everything that is except the funny things I was counseling with a game warden that told me about a lady who was losing a sheep a night to one old hungry coyote Whenever the warden came out she would start feeling sorry for the coyote and asked the warden not to shoot it Finally she had five sheep left She called the warden and once again told him she wasn't ready to have him hunt down the coyote The warden looked at the little flock of sheep and said Mrs Jones whatever you say but we've only got five more days anyway As you read this book there will be tears and sunshine The good news is you don't have to sit down and read it all at once Life Really Is Like That *The Living Ocean Teacher's Guide* ,

J. Ferguson. Wood,2012-12-06 I have enjoyed writing this book Some of my ideas are controversial Some of them I know to be true though I have not sufficient evidence for a conviction My intention is that you should realise that microbes will be as important in the future of the earth as they have been in the past They have led to our existence and may help to prevent our destruction they may even save us from ourselves i As a student I was taught that a scientist must be objective and that every statement or observation must be documented Also that a scien tist must seek the truth and not be satisfied with less It took me a long time to realize that no human being can be completely objective and that the truth even scientific truth is a chimera The most that we can get with our human minds and feeble experimentation is an approxima tion and all we can hope to contribute is a better approximation than we have had to date Newton s theories were regarded as absolute until Einstein came along and now it seems that Einstein may be inadequate **Life's Ocean** S.
