Montgomery, 2015-10-22 In 2012 Alan Montgomery sent out an email to a group of men who he knew were born between 1946 1964 a time that has been described as the Baby Boomer age The premise for this book was to gather an array of short stories from amateur writers about their experiences growing up and then compile them into a collection that is given some historical and social context by using a story from a pre and post boomer perspective He posed various questions to the contributors to help them explore their past and the impact it has had on their own current situation The stories range in scope from self discovery karate as a means to the fountain of youth to a lengthy semi biographical of one man's journey through the boomer age Four short letters from the past open the book introducing the reader to the generation before the boomers arrived *Boomer Boys Looking Back* is a book filled with interesting insights into a generation that will soon fade into obscurity as it struggles to

remain relevant Each story is designed to provide an intriguing perspective from the point of view from the boomers as they made their way through their lives A dozen or so men have made such a huge contribution toward this book those of whom have travelled distances to meet up and give their own compelling narrative of events All that remains is to take the reader on a journey of curiosity and allow you to marvel how the boomer evolved The Tomorrow Code Brian Falkner,2008-10-28 THE END OF THE WORLD started quietly enough for Tane Williams and Rebecca Richards Tane and Rebecca aren t sure what to make of it a sequence of 1s and 0s the message looks like nothing more than a random collection of alternating digits Working to decode it however Tane and Rebecca discover that the message contains lottery numbers lottery numbers that win the next random draw Suddenly Tane and Rebecca are rich but who sent the numbers And why More messages follow and slowly it becomes clear the messages are being sent back in time from Tane and Rebecca s future Something there has gone horribly wrong and it s up to them to prevent it from happening As they follow the messages cryptic instructions Tane and Rebecca begin to suspect the worst that the very survival of the human race may be at stake **Tratak** Yogi Anand Ji,2019-05-02 This book on Tratak has remarkable significance over other books on the subject Unlike unusual books on the subject it explains spiritual aspects of tratak as well It has been observed that common people are exposed to physical and materialistic benefits of tratak only Able master Yogi Shree Anand Ji a gifted expert of tratak has revealed several unknown secret details on the subject It includes use of tratak by ancient sages recent examples of use of tratak how to develop complete mastery in tratak sadhana spiritual development by tratak etc In fact Yogi Shree Anand Ji has presented rare secret wisdom of Sanatan dharma with respect to tratak owing to his great compassion towards seekers of spiritual path

Newsome,W.R. Spillers,Susan Finger,2013-03-07 In 1984 Nam Sub who was then the Assistant Director for Engineering at the National Science Foundation NSF created the Design Theory and Methodology Program Among his goals in creating this program were to develop a science of engineering design and to establish design as an accepted field of engineering research From 1984 to 1986 this program was directed by

Susan Finger from 1986 to the present Jack Dixon has been the director The program itself has covered a broad range of disciplines from chemical engineering to architecture and a broad range of research paradigms from psychological experiments to mathematical models The present volume is based on the second NSF Grantee Workshop on Design Theory and Methodology called Design Theory 88 which was held June 2 5 1988 at Rensselaer Polytechnic Institute in Troy NY USA It is however not strictly a proceedings since it includes some material that was not presented at the Workshop and since it omits some papers and discussions that were presented at the Workshop At the Workshop invited speakers presented overviews of six different research areas based on summaries submitted in advance by the grantees of the Design Theory and Methodology Program Since most of the speakers were not supported under the NSF program they brought fresh views to it The other papers in this book were submitted directly to this volume and were not presented at the Workshop
