In a grueling cow-like delivery the mother gives birth to a baby boy and still carries a twelve-year-old fetus likely to die in her didelphys uterus. By the wonders of medical science and in a climate of international diplomatic conflicts a team of experts gives birth to Emilie the curled-up tadpole and performs multiple surgeries, organ transplants and physiotherapy to create a human body for the Miracle Girl. An Awards Ceremony is held to celebrate the Nobel Prize-winning team. Crowned by the Elder during a colorful cultural ceremony by the Nepalese delegation, Queen Emilie stuns the scientific community with an appeal to humility with her message to stop behaving like gods to acknowledge God as the ultimate source of knowledge and to submit to the Almighty's wills      The Cinematic Jane Austen David Monaghan, Ariane Hudelet, John Wiltshire,2014-01-10 Jane Austen's novels are loved because they possess a comedic power that is often conveyed through the singular voice of the narrators. Film adaptations, however, have often been unsatisfactory because they lack or awkwardly render features, particularly the voice of the narrators. This work argues for a fresh approach that begins with a reading of the novels that emphasizes their auditory and visual dimensions. Building on their examination of Austen's inherently cinematic features, the authors then develop productive new readings of the films. Instructors considering this book for use in a course may request an examination copy here      "Profit and Delight" Adam Smyth,2004 The first sustained study of seventeenth-century printed miscellanies      Notes on Blindness John Hull,2017-02-09 A rediscovered modern classic: a life-affirming account of one man's journey into blindness. A gift to the whole of humanity. Cathy Rentzenbrink. Days before the birth of his first son, writer and academic John M. Hull started to go blind. He would lose his sight entirely, unable to distinguish any sense of light or shadow. Isolated and claustrophobic, he sank into a deep depression. Soon he had forgotten what his wife and daughter looked like. In *Notes on Blindness*, John reveals his profound sense of loss, his altered perceptions of time and space, of waking and sleeping, love and companionship. With astonishing lucidity of thought and no self-pity, he describes the horror of being faceless and asks what it truly means to be a husband and father. And eventually he finds a new way of experiencing the world of seeing the light. Based on John's diaries recorded on audio tape, this is a profoundly moving, wise, and life-affirming account of one man's journey into blindness. Poignant and wise. Andrew Solomon. Published in partnership with Wellcome Collection.

*Twins - From Fetus to Child* Alessandra Piontelli,2012-09-10 Though much has been written about twins, very little research has been done into their everyday lives, both postnatal and prenatal. In this fascinating new study, Alessandra Piontelli follows the development and behaviour of thirty pairs of twins from their early life in the womb through to their third year of childhood. Drawing on detailed ultrasound observations and work with mothers and families in clinical and natural settings, the text traces the subtle ways in which various types of twins live, behave, and interact with their unequally

shared and unique pre and postnatal environments Piontelli shows how from early on distinctive and personal traits can be seen in the behaviour of each member of a twin couple and how these traits continue and strengthen well beyond birth The book describes not only the behaviour of the twins but the impact they have on the lives of their family and carers what family members say how they react and how the family changes Scientifically based but warmly human in content this unique longitudinal study offers new insight for professionals working with mothers and families of twins and for researchers in human development across a range of disciplines
