The Smart Mission Edward J. Hoffman, Matthew Kohut, Laurence Prusak, 2023-10-17 Why human skills and expertise not technical tools are what make projects succeed The project is the basic unit of work in many industries Software applications antiviral vaccines launch ready spacecraft all were produced by a team and managed as a project Project management emphasizes control processes and tools but according to *The Smart Mission* that is not the right way to run a project Human skills and expertise not technical tools are what make projects successful Projects run on knowledge This paradigm shifting book by three project management experts all of whom have decades of experience at NASA and elsewhere challenges the conventional wisdom on project management focusing on the human dimension learning collaboration teaming communication and culture The authors emphasize three themes projects are fundamentally about how teams work and learn together to get things done the local level not an organization's upper levels is where the action happens and projects don't operate in a vacuum but exist within organizations that are responsible to stakeholders Drawing on examples and case studies from NASA and other organizations the authors identify three project models micro macro and global and their different knowledge needs Successful organizations have a knowledge based culture Successful project management guides the interplay of knowledge projects and people

China in Sign and Symbol Louise Crane, 1926 [Annuaire Canadien de Droit International](#) John H. Currie, Ren Provost, 2014-03-01 This is the fiftieth volume of The Canadian Yearbook of International Law The contents of this special anniversary edition reflect the diversity of Canadian and international thought opinion and practice on current problems of international law Included are a retrospective examination of Canadian approaches and contributions to international law during the Yearbook's first fifty years as well as cutting edge analyses and commentary on a wide range of issues such as the use of battlefield biometrics the cultural dimensions of sustainable development Omar Khadr's combatancy and child soldier status and immunities for gross violations of international human rights
