Lost Plantations of the South Marc R. Matrana, 2009-01-01 The great majority of the South's plantation homes have been destroyed over time and many have long been forgotten In *Lost Plantations of the South* Marc R. Matrana weaves together photographs diaries and letters architectural renderings and other rare documents to tell the story of sixty of these vanquished estates and the people who once called them home From plantations that were destroyed by natural disaster such as Alabama's Forks of Cypress to those that were intentionally demolished such as Seven Oaks in Louisiana and Mount Brilliant in Kentucky Matrana resurrects these lost mansions Including plantations throughout the South as well as border states Matrana carefully tracks the histories of each from the earliest days of construction to the often contentious struggles to preserve these irreplaceable historic treasures *Lost Plantations of the South* explores the root causes of demise and provides understanding and insight on how lessons learned in these sad losses can help prevent future preservation crises Capturing the voices of masters and mistresses alongside those of slaves and featuring more than one hundred elegant archival illustrations this book explores the powerful and complex histories of these cardinal homes across the South

Old Plantation Houses in Louisiana, William Spratling, 1927 *Haunted History of Louisiana Plantations*, A Cheryl H. White, PhD, and W. Ryan Smith, MA, 2017

Louisiana plantations evoke images of grandeur and elegance. Beyond the facade of stately homes are stories of hope and subjugation, tragedy and suffering, shame and perseverance, and war and conquest. After sixteen workers axed most of the Houmas House's ancient oak trees, referred to as the Gentlemen, eight of the surviving trees eerily twisted overnight in grief over the losses wrought by a great Mississippi River flood. An illegal duel to reclaim lost honor left the grounds of Natchez's Cherokee Plantation bloodstained, but the victim's spirit may still wander there today. A mutilated slave girl named Chloe still haunts the halls of the Myrtles Plantation in St. Francisville. Cheryl H. White and W. Ryan Smith reveal the dark history, folklore, and lasting human cost of Louisiana plantation life.

Louisiana Buildings, 1720-1940, Jessie Poesch, Barbara SoRelle Bacot, 1997-08-01

The only New Deal program to continue into the 1990s, the Historic American Buildings Survey has through the years drawn attention to the historical and artistic significance of buildings that contemporary taste might otherwise have ignored. *Louisiana Buildings, 1720-1940* makes easily available the fruit of HABS's important and enduring efforts to record Louisiana's architectural heritage. In the 1930s, the Louisiana HABS team concentrated on public edifices and grand plantation complexes threatened by destruction. Later records of HABS include still other habitations of the common man as well as industrial structures. The project has yielded not only graphic and written documentation of the buildings, many no longer standing, but also new insights into the history of the state's architecture. An invaluable part of *Louisiana Buildings, 1720-1940* is the alphabetical listing of HABS structures in Louisiana, both by familiar name and by parish. The listing by parish gives the location, the date of construction, the architect, when known, and the current status of each building. It also presents drawings or photographs of many of the structures. Over 300 pictures in all. There are, besides, nine chapters by leading architectural historians who cover all aspects of Louisiana architecture: its Creole beginnings in the south of the state, the Appalachian folk style in the north, and developments on the plantation in the seventeenth century, urban setting, and in the modern era. Those chapters form an essential frame of

reference for the data in the HABS listings and call attention to many other structures that are a part of the history of building in the Pelican State Anyone interested in the state s architecture or history will find Louisiana Buildings indispensable
