Hunting and the Ivory Tower Douglas Higbee, David Bruzina, 2018-05-11 Seventeen hunter scholars explore the hunting experience and question common negative stereotypes Despite the academy having a reputation for supporting broad and open inquiry in scholarship some academics have not extended this open minded support to colleagues personal pursuits A variety of scholars enjoy hunting which has been stereotyped by some as an activity of the unsophisticated In Hunting and the Ivory Tower Douglas Higbee and David Bruzina present essays by seventeen hunter scholars who explore the hunting experience and question negative assumptions about hunting made by intellectuals and academics who do not hunt Higbee and Bruzina suspect most academics understanding of hunting is based on brief television news reports of hunter politicians and commercials for reality TV shows such as Duck Dynasty The editors contend that few scholars appreciate the complexities of hunting or give much thought to its ethical ecological and cultural ramifications Through this anthology they hope to start a conversation about both hunting and academia and how they relate The contributors to this anthology are academics from a variety of disciplines each with firsthand hunting experience Their essays vary in style and tone from the scholarly to the personal and represent the different ways in which scholars engage with their avocation The essays are grouped into three sections the first focuses on the often fraught relation between hunters and academic culture the second section offers personal accounts of hunting by academics and the third portrays hunting from an explicitly academic point of view whether in terms of value theory metaphysics or history Combined these essays render hunting as a culturally rich deeply personal and intellectually satisfying experience worthy of further discussion A foreword is provided by

Selected Poems Hélène Aji, Jennifer Kilgore-Caradec, 2013-01-16

Complete poems are bulky and too heavy to carry around Collected poems pretend to be complete but usually are not Selected poems are altogether unpretentious and reader friendly But they can be problematic Who decides what poems are important for inclusion in a volume of selected poems When the selection occurs during the author's lifetime may one assume that the author was involved What motivates the choice of one poem over another How do readers' preferences influence this choice How do new readers and familiar readers of a poet negotiate the poems that are left out of the selection The essays in this volume address these questions in a variety of ways and also provide an overview of poetic writing from modernist poets to the present day using selections from the 1940s until now They offer new insight into the uses both pedagogical and critical of selection Because *Selected Poems* usually address a large general public these essays have also been written for all those who wish to know more about how these slimmer more attractive volumes are produced
