Love and Theft Eric Lott, 2023 Lott s study of the origins of the blackface minstrel provides a sophisticated analysis of US antebellum race relations The Politics of Romantic Theatricality, 1787-1832 D. Worrall, 2007-04-12 This book sets out the political and cultural conditions regulating dramatic writing during an era of censorship and monopolistic royal theatres Using a range of plays and manuscripts it argues for the centrality of burletta the theatrical locus of the attacks on the Cockney school of poetry and the vitality of the metropolitan dramatic scene *How Blacks Built America* Joe R. Feagin, 2015-07-30 How Blacks Built America examines the many positive and dramatic contributions made by African

Americans to this country over its long history Almost all public and scholarly discussion of African Americans accenting their distinctive societal position especially discussion outside black communities has emphasized either stereotypically negative features or the negative socioeconomic conditions that they have long faced because of systemic racism In contrast Feagin reveals that African Americans have long been an extraordinarily important asset for this country Without their essential contributions indeed there probably would not have been a United States This is an ideal addition to courses race and ethnicity courses

The Arts and Culture of the American Civil War James Davis,2016-11-18 In 1864 Union soldier Charles George described a charge into battle by General Phil Sheridan Such a picture of earnestness and determination I never saw as he showed as he came in sight of the battle field What a scene for a painter These words proved prophetic as Sheridan s desperate ride provided the subject for numerous paintings and etchings as well as songs and poetry George was not alone in thinking of art in the midst of combat the significance of the issues under contention the brutal intensity of the fighting and the staggering number of casualties combined to form a tragedy so profound that some could not help but view it through an aesthetic lens to see the war as a concert of death It is hardly surprising that art influenced the perception and interpretation of the war given the intrinsic role that the arts played in the lives of antebellum Americans Nor is it surprising that literature music and the visual arts were permanently altered by such an emotional and material catastrophe In **The Arts and Culture of the American Civil War** an interdisciplinary team of scholars explores the way the arts theatre music fiction poetry painting architecture and dance were influenced by the war as well as the unique ways that art functioned during and immediately following the war Included are discussions of familiar topics such as Ambrose Bierce Peter Rothmel and minstrelsy with less studied subjects soldiers and dance epistolary songs The collection as a whole sheds light on the role of race class and gender in the production and consumption of the arts for soldiers and civilians at this time it also draws attention to the ways that art shaped and was shaped by veterans long after the war

Birdville School; A Portrait of Small-Town America

in the 20th Century Bob Barrage, 2019-01-03 Birdville School opened in 1922 on the corner of two dirt roads at the edge of a fallow farm. Over the next 67 school years it witnessed and influenced the unfolding story of the town that grew up around it amid flood, brushfire, blizzard, tornado, and earthquake; poverty and prosperity, war, peace, and cold war; and even the collapse of the earth beneath its foundations. Its auditorium and cafeteria hosted PTA meetings, plays, movies, concerts, basketball tournaments, holiday parties, Girl Scout and Boy Scout meetings, polio vaccination clinics, and war-time rationing registrations and scrap collection drives. Local sand lot softball, baseball, and football teams competed in the same surrounding fields that swarmed with gleeful children at recess and that echoed with the roar of low-flying aircrafts snagging mailbags on their tail hooks. Among its staff were thespians, musicians, firemen, outdoorsmen, and athletes, including a singer who performed in the Coolidge White House, a candidate for the state legislature, an army medic, and a ball player who faced off against the Homestead Grays and the Pittsburgh Pirates. By the time classes concluded for the last time in 1989, thousands of children, including the author, had benefitted from the care, instruction, and example of the Birdville School family. This book is a feeble tribute to those who made us who we are. **Exploring the Black Venus Figure in Aesthetic Practices**, 2019-07-15

Exploring the Black Venus Figure in Aesthetic Practices critically examines a longstanding colonial fascination with the black female body as an object of sexual desire, envy, and anxiety. Since the 2002 repatriation of the remains of Sara Baartman to post-apartheid South Africa, the interest in the figure of Black Venus has skyrocketed, making her a key symbol for the restoration of the racialized female body in feminist, anti-racist, and postcolonial terms. Edited by Jorunn Gjerden Kari Jegerstedt and eljka vrljuga, this volume considers Black Venus as a product of art, established and potentially refigured through aesthetic practices following her travels through different periods, geographies, and art forms, from Baudelaire to Kara Walker, and from the Caribbean to Scandinavia. Contributors: Kjersti Aarstein, Carmen Birkle, Jorunn Svensen, Gjerden Kari Jegerstedt, Ulla Angkj r J rgensen, Ljubica Matek, Margery Vibe Skagen, Camilla Erichsen, Skalle eljka vrljuga.

Stairway to Paradise Ari Katorza, 2021-09-07 *Stairway to Paradise* reveals how American Jewish entrepreneurs, musicians, and performers influenced American popular music from the late nineteenth century till the mid 1960s. From blackface minstrelsy, ragtime, blues, jazz, and Broadway musicals ending with folk and rock n roll, the book follows the writers and artists' real and imaginative relationship with African American culture's charisma. *Stairway to Paradise* discusses the artistic and occasionally ideological dialogue that these artists, writers, and entrepreneurs had with African American artists and culture. Tracing Jewish immigration to the United States and the entry of Jews into the entertainment and cultural industry, the book allocates extensive space to the charged connection between music and politics as reflected in the Jewish Black Alliance, both in the struggle for social justice and in the music field. It reveals Jewish success in the music industry and the unique and sometimes problematic relationships that characterized this process as their dominance in this field became a source of blame for exploiting African American artistic and human capital. Alongside this, the book shows how black Jewish

cooperation and its fragile alliance played a role in the hegemonic conflicts involving American culture during the 20th century Unintentionally it influenced the process of decline of the influence of the WASP elite during the 1960s Stairway to Paradise fuses American history and musicology with cultural studies theories This interdisciplinary approach regarding race class and ethnicity offers an alternative view of more traditional notions regarding understanding American music's evolution

Sonidos Negros K. Meira Goldberg, 2019 How is the politics of Blackness figured in the flamenco dancing body What does flamenco dance tell us about the construction of race in the Atlantic world Sonidos Negros traces how in the span between 1492 and 1933 the vanquished Moor became Black and how this figure enacted in terms of a minstrelized Gitano paradoxically came to represent Spain itself The imagined Gypsy about which flamenco imagery turns dances on a knife's edge delineating Christian and non-Christian White and Black worlds This figure's subversive teetering undermines Spain's symbolic linkage of religion with race a prime weapon of conquest Flamenco's Sonidos Negros live in this precarious balance amid the purposeful confusion and ruckus cloaking embodied resistance the lament for what has been lost and the values and aspirations of those rendered imperceptible by enslavement and colonization

Unfinished Business Judith Hamera, 2017-10-02 How does structural economic change look and feel How are such changes normalized Who represents hope Who are the cautionary tales Unfinished Business argues that U.S. deindustrialization cannot be understood apart from issues of race and specifically apart from images of and works by and about African Americans that represent or resist normative or aberrant relationships to work and capital in transitional times It insists that Michael Jackson's performances and coverage of his life plays featuring Detroit plans for the city's postindustrial revitalization and Detroit installations The Heidelberg Project and Mobile Homestead have something valuable to teach us about three decades of structural economic transition in the U.S. particularly about the changing nature of work and capitalism between the mid 1980s and 2016 Jackson and Detroit offer examples of the racialization of deindustrialization how it operates as a structure of feeling and as representations as well as a shift in the dominant mode of production and how industrialization's successor mode financialization uses imagery both very similar to and very different from its predecessor

Epistemic Justice and Creative Agency Sarah Colvin, Stephanie Galasso, 2022-09-12 Foundational theories of epistemic justice such as Miranda Fricker's have cited literary narratives to support their case But why have those narratives in particular provided the resource that was needed And is cultural production always supportive of epistemic justice This essay collection written by experts in literary philosophical and cultural studies working in conversation with each other across a range of global contexts expands the emerging field of epistemic injustice studies The essays analyze the complex

relationship between narrative aesthetics and epistemic in justice referencing texts film and other forms of cultural production The authors present without seeking to synthesize perspectives on how justice and injustice are narratively and aesthetically produced This volume by no means wants to say the last word on epistemic justice and creative agency The intention is to open out a productive new field of study at a time when understanding the workings of injustice and possibilities for justice seems an ever more urgent project
