Art and Memory in the Work of Elizabeth Bishop Jonathan Ellis, 2018-01-17 In Art and Memory in the Work of Elizabeth Bishop Jonathan Ellis offers evidence for a redirection in Bishop studies toward a more thorough scrutiny of the links between Bishop's art and life The book is less concerned with the details of what actually happened to Bishop than with

the ways in which she refracted key events into writing both personal unpublished material as well as stories poems and paintings Thus Ellis challenges Bishop s reputation as either a strictly impersonal or personal writer and repositions her poetry between the Modernists on the one hand and the Confessionals on the other Although Elizabeth Bishop was born and died in Massachusetts she lived a life more bohemian and varied than that of almost all of her contemporaries a fact masked by the tendency of biographers and critics to focus on Bishop s life in the United States Drawing on published works and unpublished material overlooked by many critics Ellis gives equal attention to the influence of Bishop s Canadian upbringing on her art and to the shifts in her aesthetic and personal tastes that took place during Bishop s residence in Brazil during the 1950s and 1960s By bringing together the whole of Bishop s work this book opens a welcome new direction in Bishop studies specifically and in the study of women poets generally

Cultural Ways of Worldmaking Vera Nünning,Ansgar Nünning,Birgit Neumann,2010-06-29 Taking as its point of departure Nelson Goodman s theory of symbol systems as delineated in his seminal book Ways of Worldmaking this volume gauges the possibilities and perspectives offered by the worldmaking approach as a model for the study of culture Its main objectives are to explore the usefulness and scope of the approach for the study of culture and to supplement Goodman s philosophy of worldmaking with a number of complementary disciplinary perspectives literary and cultural approaches and new questions and applications It focuses on three key issues or concepts which illuminate ways of worldmaking and their interdisciplinary relevance and ramifications viz 1 theoretical approaches to ways of worldmaking 2 the impact of media on ways of worldmaking and 3 narratives as ways of worldmaking The volume serves to demonstrate how specific media and narratives affect the worlds that are created and shows how these worlds are established as socially relevant It also illustrates the extent to which ways of worldmaking are imbued with cultural values and thus inevitably implicated in power relations
