Love's Promises Martha M. Ertman, 2016-05-24 Blends memoir and legal cases to show how contracts can create family relationships Most people think of love and contracts as strange bedfellows or even opposites In Love's Promises however law professor Martha Ertman shows that far from cold and calculating contracts shape and sustain families Blending memoir and law Ertman delves into the legal cases anecdotes and history of family law to show that love comes in different packages each shaped by different contracts and mini contracts she calls deals Family law should and often does recognize that variety because legal rules like relationships aren't one size fits all The most common form of family which Ertman calls Plan A come into being through different kinds of agreements than the more uncommon families that she dubs Plan B Recognizing the contractual core of all families shows that Plan B is neither unnatural nor unworthy of legal recognition just different After telling her own moving and often irreverent story about becoming part of a Plan B family of two moms and a dad raising a child Ertman shows that all kinds of people straight and gay married and single related by adoption or by genetics use contracts to shape their relationships As couples navigate marriage reproductive technologies adoption and cohabitation they encounter contracts Sometimes hidden and other times openly acknowledged these contracts ensure that the people they think of as family are legally recognized as family in the eyes of the law Family exchanges can be substantial like vows of fidelity or small like I cook and you clean But regardless of scope the agreements shape the emotional social and financial terrain of family relationships Seeing the instrumental role contracts will help readers better understand how contracts and deals work in their own families as well as those around them Both insightful and paradigm shifting Love's Promises lets readers in on the power of contracts and deals to support love in its many forms and to honor the different ways that our nearest and dearest contribute to our daily lives

George A. Richter, 1996. This book examines the outlook for the survival of humanity in the burgeoning threats to our species by our species. The subject is addressed from many perspectives including the basic nature of the human psyche, evolutionary theory, quantum physics, neuroscience, the evolution of order as this process relates to the life forces of individual organisms, their species. Richter develops the brief that an optimistic prognosis for human survival is justified only if human

beings can do more than pay lip service to the concept of free will Presented here is a strong scientific argument in support of the existence of free will as a valid human attribute The book is written to be understood not only by scientists but by interested non scientists as well Richter is a physical chemist who a few years ago began to wonder whether the human species can escape self extinction by its own clever devices Yin Yang Books 1479 Grasshopper Road Huntingdon Valley PA 19006 Phone 215 947 3240

The Devil's Visit: Demonic Possession Vanessa Del Rey Fontana, 2017-08-25 The Devil exists We know that since the very beginning he was there deceiving our first ancestors He knows the human soul very well He observed the most hidden desires while tempting the human being The evil spirit is hidden It deceives while in many occasions it is a wolf in sheep's clothing And it likes to be ignored by people for then the damage is even bigger Oh poor people those who overlook this fact He can scent the innocence in people The purest the soul the more valuable it will be Don't take him for granted He might be dirty and condemned but he is not shy he is rather wise and can use his tricks to drag people away from the bright path making their lives questionable He is the father of the lies and only one person can fight him our almighty Lord the Creator of the universe This book tells the story of three innocent children and their families to whom the Devil presented himself stalking and inflicting torment upon them This is not a work of fiction All the facts are real The characters' identities were preserved Ruskin Bond A Study of Human Emotions Dr. Sangeeta Paul Budhiraja, Literature challenges one not only to think about ethical conundrums but also makes one sensitive and compassionate When it blends with euphoria and nostalgia the integral parts of human mind it toughens and becomes sturdy Man loves to live in his past memories to be happy The

experiences form a part of human personality and shape their behaviour pattern Nostalgia stores for us our memories which we relish lifelong Even the lamentable days of past become pleasant Though we might have ignored some not too pleasant incidents in our bygone days yet somewhat bitter experiences appear to be impressive and attractive It is aptly said that the panorama of mountains appear beautiful and splendid from a distance The bitterness of nearness is intolerable The more we grow in years the more our past recedes Distance from the life lived long ago makes it sweet and desirable Strain and stress of the present becomes frivolous when we slip and relapse into euphoric nostalgia The instincts of euphoria and nostalgia have been vividly handled by the legendary writers of all times They have given various dimensions and definitions to the readers to redeem these human aspects yet many more stones are still unturned These two instincts in the oeuvre of the legendary writer Ruskin Bond are the anchor points that suggest the scope of study I have chosen to put forward the very idea about how a man's body mind and soul blend with traces of his past memories and support the holistic growth
