Macht Und Geheimnis Der Jesuiten:

Macht und Geheimnis der Jesuiten René Fülöp-Miller, 1929 Macht und Geheimnis Der Jesuiten. The Power and Secret of the Jesuits. Translated by Frank S. Flint and Dorothy F. Tait. René Fülöp-Miller, Frank Stewart Flint, Dorothy Fraser Tait, 1957 **Jesuit School Drama** Nigel Griffin, 1986 **Macht und Geheimnis der Jesuiten** René Fülöp-Miller, 1929 *Early History of the Southwest Through the Eyes of German-Speaking Jesuit Missionaries* Albrecht Classen, 2013 The history of the United States has been deeply determined by Germans throughout time but hardly anyone has noticed that this was the case in the Southwest as well known as Arizona Sonora today in the eighteenth century as Pimer a Alta This was the area where the Jesuits operated all by themselves and many of them at least since the 1730s originated from the Holy Roman Empire hence were identified as Germans including Swiss Austrians Bohemians Croats Alsatians and Poles Most of them were highly devout and dedicated hard working and very intelligent people achieving wonders in terms of settling the native population teaching and converting them to Christianity However because of complex political processes and the effects of the black legend all Jesuit missionaries were expelled from the Americas in 1767 and the order was banned globally in 1773 As this book illustrates a surprisingly large number of these German Jesuits composed extensive reports and even encyclopedias not to forget letters about the Sonoran Desert and its people Much of what we know about that world derives from their writing which proves to be fascinating lively and highly informative reading material **The Oxford Handbook of the Jesuits** Ines G. Županov, 2019 Through its missionary pedagogical and scientific accomplishments the Society of Jesus known as the Jesuits became one of the first institutions with a truly global reach in practice and intention The Oxford Handbook of the Jesuits offers a critical assessment of the Order helping to chart new directions for research at a time when there is renewed interest in Jesuit studies In particular the Handbook examines their resilient dynamism and innovative spirit grounded in Catholic theology and Christian spirituality but also profoundly rooted in society and cultural institutions It also explores Jesuit contributions to education the arts politics and theology among others The volume is organized in seven major sections totaling forty articles on the Order s foundation and administration the theological underpinnings of its activities the Jesuit involvement with secular culture missiology the Order s contributions to the arts and sciences the suppression the Order endured in the 18th century and finally the restoration The volume also looks at the way the Jesuit Order is changing including becoming more non European and ethnically diverse with its members increasingly interested in engaging society in addition to traditional pastoral duties **Mission und Ökonomie der Jesuiten in Indien** Julia Lederle, 2009 Als 1542 die ersten Jesuiten Indien erreichten hatte die aufstrebende Seemacht Portugal bereits begonnen sich in Asien ein Weltreich aufzubauen dessen Beherrschung nach portugiesischer Auffassung mit seiner Christianisierung untrennbar verbunden war Der Jesuitenorden übernahm dabei bis zu seinem Verbot in Indien im Jahr 1759 eine führende Rolle Indes erregten seine besonderen Missionsmethoden sowohl in Europa als auch in Asien ebenso

Aufmerksamkeit und Argwohn wie sein ökonomisches Wirken Die Arbeit legt dar dass sich Handeln und Scheitern der Gesellschaft Jesu in Sudasien im 18 Jahrhundert auf ökonomische politische kulturelle und religiöse Parameter in Europa und Indien zuruckfuhren lassen So werden einheimische und europäische Konflikte in Indien ebenso beleuchtet wie die beginnende europäische Nationalisierung die bereits ihre Schatten auf den überseeischen Handel warf und sich konträr zur Multinationalisierung der Jesuiten in Sudindien verhielt Die Auseinandersetzung mit der Malabar Provinz der Jesuiten im 18 Jahrhundert erlaubt dabei den Blick auf eine bis dato wenig analysierte Situation der Ordensgeschichte die exemplarisch mehr Licht in die finanzielle Situation des Ordens in Indien und seine Missionsorganisation zu bringen vermag Behind The Dictators: A Factual Analysis Of The Relationship Of Nazi-Fascism And Roman Catholicism Leo H Lehmann,2025-01-14

Behind the Dictators by Leo H Lehmann is a bold and meticulously researched exploration of the connections between Nazi Fascist regimes and elements within the Roman Catholic Church Through compelling analysis and historical documentation Lehmann delves into the complex relationship between political authoritarianism and religious influence in 20th century Europe In this provocative work Lehmann examines the ideological and practical alliances that emerged between key figures in the Catholic hierarchy and fascist leaders like Adolf Hitler and Benito Mussolini He explores how shared interests ranging from anti communism to the consolidation of power forged unlikely alliances and influenced the political landscape of the time Drawing from historical records speeches and firsthand accounts Lehmann provides a detailed and critical account of these interactions revealing the extent to which religion and politics intersected during one of history s darkest periods While unflinching in its critique Behind the Dictators also contextualizes the broader historical social and economic pressures that shaped these alliances Lehmann s analysis serves as both a historical study and a cautionary tale about the potential dangers of intertwining religious authority with political power Ideal for readers interested in history political science or the dynamics of religion and power Behind the Dictators offers a thought provoking and challenging perspective on the role of institutions during times of upheaval This book is a compelling resource for anyone seeking to understand the undercurrents that shaped the political and religious alliances of the 20th century **The Jesuits** John W. O'Malley,Gauvin Alexander Bailey,Steven J. Harris,T. Frank Kennedy,2016-01-28

In recent years scholars in a range of disciplines have begun to re evaluate the history of the Society of Jesus Approaching the subject with new questions and methods they have reconsidered the importance of the Society in many sectors including those related to the sciences and the arts They have also looked at the Jesuits as emblematic of certain traits of early modern Europeans especially as those Europeans interacted with the Other in Asia and the Americas Originating in an international conference held at Boston College in 1997 the thirty five essays here reflect this new historiographical trend Focusing on the Old Society the Society before its suppression in 1773 by papal edict they examine the worldwide Jesuit undertaking in such fields as music art architecture devotional writing mathematics physics astronomy natural history public performance and education and they give special attention to the Jesuits interaction with

non European cultures in North and South America China India and the Philippines A picture emerges not only of the individual Jesuit who might be missionary diplomat architect and playwright over the course of his life in the Society but also of the immense and many faceted Jesuit enterprise as forming a kind of cultural ecosystem The Jesuits of the Old Society liked to think they had a way of proceeding special to themselves The question Was there a Jesuit style a Jesuit corporate culture is the thread that runs through this interdisciplinary collection of studies **Saints or Devils Incarnate?** John W. O'Malley, 2013-09-15 Almost from the moment the Jesuits were founded in 1540 by Ignatius of Loyola and his companions they suffered from misunderstanding some positive much of it negative Myth and misinformation abounded The Society of Jesus the Jesuits official name was a society of saints or of devils incarnate Not until the mid twentieth century did historians begin to dispel some of the myths but only with John O Malley s *The First Jesuits* 1993 did a new era open in the study of the Society Since then the Jesuits have attracted great attention from scholars of all disciplines on an international basis O Malley has continued to write about Saint Ignatius and the subsequent history of the Jesuits This volume contains a number of such studies and presses forward the trajectory he launched two decades ago with his book **The Jesuits II** John W. O'Malley, Gauvin Alexander Bailey, Steven J. Harris, T. Frank Kennedy, 2016-05-12 Recent years have seen scholars in a wide range of disciplines re evaluate the history of the Society of Jesus In 1997 a group of scholars convened a major international conference to discuss the world of the Jesuits between 1540 and 1773 the year of its suppression by papal edict This meeting led to the creation of the first volume in this series *The Jesuits* which examined the worldwide Jesuit undertaking in such fields as music art architecture devotional writing mathematics physics astronomy natural history public performance and education with special attention to the Jesuits interaction with non European cultures This second volume following a second conference in 2002 continues in a similar path as its predecessor complementing the regional coverage with contributions on the Flemish and Iberian provinces on the missions in Japan and in post Suppression Russia and the United States The performing arts like theatre and music are broadly treated and in addition to continued attention to painting and architecture the volume contains essays on a range of objets d art including statuary reliquaries and altar pieces as well as on gardens mechanical clocks and related automata Other themes include finances natural theology censorship within the Jesuit order and the Society s relationship to women Perhaps most important the volume gives particular attention to the eighteenth century the age of disasters for the Jesuits the negative papal ruling on Chinese Rites the destruction of Paraguay Reductions and the suppressions of the order that began in Portugal and that culminated in the general Suppression of 1773 With contributions from distinguished scholars from a dozen different countries *The Jesuits II* continues in the illustrious tradition of its predecessor to make an important contribution to religious memory *A Study of the Life and Works of Athanasius Kircher, 'Germanus Incredibilis'* John Edward Fletcher, 2011-08-25 Athanasius Kircher a German Jesuit in 17th century Rome was an extraordinary polymath His fascinating correspondence with popes princes and priests was a key to the

mind set of the period and the transition from medieval to modern scientific thinking **Jesuiten-Spiegel** Walter Rupp, 2016-03-09 Die Jesuiten werden noch immer als eine umstrittene und geheimnisvolle Ordensgemeinschaft angesehen Der Autor dieses Buches Mitglied dieses Ordens versucht die Grundidee des Ordens den Aufbau die wechselvolle Geschichte und die Ziele die er verfolgt darzustellen **History of the Church: Reformation and Counter Reformation** Hubert Jedin, John Patrick Dolan, 1980 Die Große Hoffnung Ellen G. White, 197? *Weltgeschichte der Lüge* Heinrich Wolf, 1942
