have more fun using Mac OS 10.4 Tiger. Nothing but the tips. You're not going to find complicated descriptions on how to configure a network, how to partition a hard drive, or lines and lines of scary looking UNIX code. Instead, this book is nothing but cool tips, and it's all written in Scott's casual plain English style so you can start using these tips today. Plus, this book does the standard sidebar tip one better by including a clear screen capture with nearly every tip so you can see exactly how it's all done. Not just tips. Killer tips. To be in this book, every tip has got to be a Killer Tip, the kind of tip that makes you nod and smile, then call all your Mac buddies to tune them up with your new found power. Scott's a total hip hound. In fact, it was Scott who created the entire smash bestselling Killer Tips book series, and he doesn't hold anything back. It's all here from the man who literally wrote the book on cool productivity tips. If you like doing things the easy way, if you like getting twice the work done in half the time, and if you get a kick out of knowing all the inside secrets and undocumented shortcuts that will wow your friends and coworkers, you're absolutely going to love this book.

The book's layout is brilliant, with each page covering just one single topic so finding the information you need is quick and easy, with a large full color photo on each page so you can see exactly how it works. The first edition of this book was named Best Computer Book of 2007, and since then Scott and Terry have added even more tips and tricks and made it even easier by focusing on just the most useful and most requested iPhone 4S, 4, and 3GS features without all the techno babble so you can start really using your iPhone today.
