Damaged Identities, Narrative Repair Hilde Lindemann, 2001 The nature of identity especially of groups such as Gypsies mothers nurses and transsexuals is explored by comparing the stories these groups express of themselves against the narratives written about them Feminist Academic Press Hilde Lindemann Nelson focuses on the stories of groups of people including Gypsies mothers nurses and transsexuals whose identities have been defined by those with the power to speak for them and to constrain the scope of their actions By placing their stories side by side with narratives about the groups in question Nelson arrives at some important insights regarding the nature of identity She regards personal identity as consisting not only of how people view themselves but also of how others view them These perceptions combine to shape the person's field of action If a dominant group constructs the identities of certain people through socially shared narratives that mark them as morally subnormal those who bear the damaged identity cannot exercise their moral agency freely Nelson identifies two kinds of damage inflicted on identities by abusive group relations one kind deprives individuals of important social goods and the other deprives them of self respect To intervene in the production of either kind of damage Nelson develops the counterstory a strategy of resistance that allows the identity to be narratively repaired and so restores the person to full membership in the social and moral community By attending to the power dynamics that constrict agency Damaged Identities Narrative Repair augments the narrative approaches of ethicists such as Alasdair MacIntyre Martha Nussbaum Richard Rorty and Charles Taylor

Age of Anxiety Anthony M. Wachs, Jon D. Schaff, 2019-11-29 Age of Anxiety Meaning Identity and Politics in 21st Century Film and Literature analyzes literature and films that speak to our age of anxiety resulting from the decline of narratives that provided individuals with a meaningful human life The authors argue that the twentieth century sought to free individuals from the constraints of authoritative cultural traditions and institutions liberating the autonomous self Yet this has given rise to anxiety rather than liberation Instead of deriving one's sense of purpose from one's role and place within a community the consumer has been deceived into thinking that their identity can be purchased through the meaning represented by the conspicuous consumption of a brand The same phenomenon manifests itself in politics within recent populist revolts against globalist politics In addition the rapid pace of technological development is driving an unprecedented faith in the malleability of human beings raises doubts as to what it means to be a person Utilizing paradigms from the fields of Communication Rhetoric and Political Philosophy the book shows how the self has been displaced from its natural habitat of the local community The book traces the origins of modern anxiety as well as possible remedies Considered in the book are such popular culture artifacts as *Downton Abbey*

Parry, 2005-06-02 Christian use of the Old Testament has tended to focus on law and wisdom literature and to marginalize narrative materials This book restores story to its rightful place in Old Testament ethics and aims to set out parameters within which Christian ethical reappropriations of Old Testament narratives can take place The argument begins by examining recent philosophical studies of the role of story in the ethical life Special attention is paid to the work of Paul Ricoer Martha Nussbaum and Robert C Roberts Then the theological foundations are laid by demonstrating the importance of narrative for Old Testament ethics and of the biblical metanarrative for Christian interpretation Genesis 34 is examined as a detailed case study to exemplify the fruits of the method for Christian readers The study considers reception history feminist interpretation discourse analysis and canonical context to shed new light on the terrible story of the rape of Dinah **Modern Virtue** Emily Dumler-Winckler, 2022 Modern Virtue is the first book length treatment of Mary Wollstonecraft s theology and religion the first to show the centrality of each for her account of the virtues and revolution and the first by a scholar in these fields While Wollstonecraft is canonical in many other fields she is mostly unknown or ignored in virtue ethics theology and religion This book remedies this omission and the prevalent narratives sustained by it in the latter as well as predominant views of her religion and virtue in the former Embodied Existence Pavol Bargár, 2023-05-04 This book makes a case from an ecumenical Christian perspective for a theological anthropology and a missiology that are based on the essential significance of story body imagination and relationality in order to understand what it means to be human vis a vis God the other and creation Such an interpretation moreover enables seeking and pursuing a common life for the whole creation in the force field of God s radical and transformative reign To advance its argument it engages contemporary culture including cinema and to a lesser extent fiction and music **Private Fleming at Chancellorsville** Perry Lentz, 2006 What intelligent person has never pondered the meaning of life For Yuval Lurie this is more than a puzzling philosophical question it is a journey and in this book he takes readers on a search that ranges from ancient quests for the purpose of life to the ruminations of postmodern thinkers on meaning He shows that the question about the meaning of life expresses philosophical puzzlement regarding life in general as well as personal concern about one s own life in particular Lurie traces the emergence of this question as a modern philosophical quandary riddled with shifts and turns that have arisen over the years in response to it Tracking the Meaning of Life is written as a critical philosophical investigation stretching over several traditions such as analytic philosophy phenomenology and existentialism It maps out a journey that

explores pivotal responses to this question drawing especially on the thought of Tolstoy Wittgenstein Sartre and Camus and exploring in depth the insights these thinkers offer regarding their own difficulties concerning the meaning of life In the book s four sections Lurie discusses Tolstoy s challenge to experience the religious and transcendental meaning of life by choosing a simple hardworking existence Wittgenstein s focus on ethics and discovering the sense of the world his conclusion that the question of the meaning of life makes no sense and his turning to experience the mystical aspect of the world Sartre s positing of freedom as the basis of human life stipulating a personal answer to the question of the meaning of life and Camus view of the absurdity of life unalleviated by any personal meaning Guided by these views Lurie imparts new insight to ideas that underlie our concern with life s meaning such as the difference between attitudes toward life and beliefs and opinions about life the meaning of words versus the meaning of events shared meanings versus personal meanings and the link between ethics and personal identity Tracking the Meaning of Life is no mere dry philosophical study but a journey that dramatically illustrates the poignancy of the quest for meaning showing that along the way it gradually becomes more obvious how personal meaning may be found in the pulsations of everyday life The book offers stimulating reading not only for scholars in philosophy but also for general readers who wish to see how their personal concerns are echoed in modern philosophical thought More than a description of a journey it is a map to anxieties and puzzlements we all face pointing to ideas that can guide readers on their own search for meaning Participatory Community Inquiry in the Opioid Epidemic
