Knap,2013-03-09 Fifty years ago Claude Chevalley revolutionized Lie theory by publishing his classic Theory of Lie Groups I Before his book Lie theory was a mixture of local and global results As Chevalley put it This limitation was probably necessary as long as general topology was not yet sufficiently well elaborated to provide a solid base for a theory in the large These days are now passed Indeed they are passed because Chevalley s book changed matters Chevalley made global Lie groups into the primary objects of study In his third and fourth chapters he introduced the global notion of analytic subgroup so that Lie subalgebras corresponded exactly to analytic subgroups This correspondence is now taken as absolutely standard and any introduction to general Lie groups has to have it at its core Nowadays local Lie groups are a thing of the past they arise only at one point in the development and only until Chevalley s results have been stated and have eliminated the need for the local theory But where does the theory go from this point Fifty years after Chevalley s book there are clear topics E Cartan s completion of W Killing s work on classifying complex semisimple Lie algebras the treatment of finite dimensional representations of complex semisimple Lie algebras and compact Lie groups by Cartan and H Weyl the structure theory begun by Cartan for real semisimple Lie algebras and Lie groups and harmonic analysis in the setting of semisimple groups as begun by Cartan and Weyl **The Annual American Catalog, 1900-1909** ,1902 The Reference Catalogue of Current Literature ,1875 **Australian national bibliography** ,1961 *Publishers' Weekly* ,1896 Reference Catalogue of Current Literature ,1906 **A Reader's Guide to the Choice of the Best Available Books (about 50,000) in Every Department of Science, Art & Literature, with the Dates of the First & Last Editions, & the Price, Size & Publisher's Name of Each Book** William Swan Sonnenschein,1901 **A Classified Catalogue of School, College, Classical, Training, and General Educational Works in Use in Great Britain, Etc** Walter LOW,1871
