Division of Research Grants,1966 **The Bookseller and the Stationery Trades' Journal** ,1922 **Reshaping Change** Patrick Dawson,2019-05-22 This book views change as an ongoing process that should not be solidified or treated as a series of linear events In drawing on data collected from over 40 years of research it highlights the theoretical and practical value of using a processual perspective Illustrative examples from a range of organizations including Micro X General Motors Pirelli Cables BHP Billiton Royal Dutch Shell British Rail British Aerospace Hewlett Packard Laubman and Pank and the CSIRO make the approach understandable and accessible to both researchers and practitioners In a theoretical exploration of temporal context sociomaterial relations and power political processes the dynamics of changing organizations is brought to the fore and the implication for reshaping change examined On the practice of engaging in longitudinal research study design data collection and processual analysis as well as the write up and dissemination of findings are all considered This is an innovative and highly practical research monograph that captures the truly complex processes of changing organizations and illustrates how these are best understood from a processual perspective *Catalog of Copyright Entries.
