This paper presents Honduras' Second Reviews Under the Stand-By Arrangement and Arrangement Under the Stand-By Credit Facility. Requests for Augmentation and Rephasing of Access and Modification of Performance Criteria. The coronavirus disease 2019 pandemic and external spillovers are expected to hit Honduras hard, and the augmentation of access will support the authorities' response to mitigate the impact. The completion of the reviews will help Honduras meet urgent balance-of-payments needs stemming from the pandemic, including increased health care and social spending. The authorities continue to take steps to improve the institutional framework in the electricity sector. Important measures have been incorporated into the program. These aim at improving governance and facilitating the unbundling of the national electricity company. Tariffs continue to reflect the cost of electricity provision while providing subsidies to the poor. The augmentation of access under the Stand-By Arrangement and the Arrangement under the Standby Credit Facility should help the authorities cover external financing needs to mitigate the impact of the pandemic.

The protracted pandemic and two tropical storms have hit Honduras hard. Despite authorities' responses, these shocks continue to weigh on activity. Presidential elections are scheduled for November 2021.
