countries alike And well it should be The economy affects decisions by investors manufacturers distributors importers and exporters etc in all parts of the world Often it is the difference between growth and profitability on one hand and stagnation or failure on the other In recent years as the world economy has undergone overwhelming changes especially in East Asia and now in the advanced countries understanding what is going on in the local economy and out there in the world has become a particular challenge to managers The new developments of which the new economy is the most recent one do not supercede the basic theoretical framework of macroeconomics But they add greatly to the challenge of understanding the economic situation and to its uncertainty This book was originally written to meet the needs of a business curriculum based on the program at the Sasin Graduate Institute of Business Administration of Chulalongkorn University in Bangkok in collaboration with the Wharton and Kellogg Business Schools in the United States The book is intended for a broad audience both domestic and international that includes mature MBA business students intermediate level undergraduates and informed laypersons

**Political Dimensions of the American Macroeconomy** Gerald T. Fox, 2019-11-22 Political macroeconomy refers to the interconnection between macroeconomic politics and macroeconomic performance The expectational Phillips curve may be used to examine the economic aspects of this interrelation Macroeconomic politics relates to voter behavior presidential reelection ambition partisan economic priorities and special interests These factors impact the fiscal and monetary policy actions of the president Congress and central bank According to the electoral effect presidents attempt to boost the economy before an election to increase reelection votes According to the partisan effect conservative presidencies are relatively inflation averse while liberal administrations are relatively unemployment averse The evidence however suggests that the electoral and partisan effects occurred idiosyncratically in the U S economy during 1961 2016 The economy also affects presidential approval Congressional elections consumer sentiment voter participation and macropartisanship An international dimension of the political macroeconomy is the issue of free trade versus protectionism and the perspectives of economic liberalism neomercantilism and structuralism
