**Mad Minutes and Vietnam Months** Micheal Clodfelter, 2016-05-13 This thoughtful memoir recounts one man's transformation from a glory seeking gung ho Kansas teenager to a weary twice wounded grunt who had volunteered for a second tour of duty Enlisting in the Army in June 1964 at age 17 Micheal Clodfelter was assigned to an artillery battalion of the 101st Airborne Division and arrived at Cam Ranh Bay on July 29 1965 on August 9 1966 after having requested a transfer to the infantry he was assigned to Charlie Company 2 502nd Airborne serving in Phu Yen and Kontum provinces A second injury resulted in his medical evacuation from Vietnam on January 8 1967 Describing the intensity of mad minutes the general discharge of all weapons along a defense perimeter to discourage a potential enemy attack amid the monotony exhaustion and horror of war Clodfelter writes of entering a territory from which none of us ever really returned *Grunts* Kyle Longley, Jacqueline Whitt, 2020-05-17 Now in its second edition *Grunts The American Combat Soldier in Vietnam* provides a fresh approach to understanding the American combat soldier's experience in Vietnam by focusing on the day to day experiences of front line troops The book delves into the Vietnam combat soldier's experience from the decision to join the army life in training and combat and readjusting to civilian life with memories of war By utilizing letters oral histories and memoirs of actual veterans Kyle Longley and Jacqueline Whitt offer a powerful insight into the minds and lives of the 870 000 grunts who endured the controversial war Important topics such as class race and gender are examined enabling students to better analyze the social dynamics during this divisive period of American history In addition to an updated introduction and epilogue the new edition includes expanded sections on military chaplains medics and the moral injury of war A new timeline provides details of major events leading up to during and after the war A truly comprehensive picture of the Vietnam experience for soldiers this volume is a valuable and unique addition to military history courses and classes on the Vietnam War and 1960s America *Pulp Vietnam* Gregory A. Daddis, 2020-10-22 In this compelling evaluation of Cold War popular culture *Pulp Vietnam* explores how men's adventure magazines helped shape the attitudes of young working class Americans the same men who fought and served in the long and bitter war in Vietnam The macho pulps boasting titles like *Man's Conquest* *Battle Cry* and *Adventure Life* portrayed men courageously defeating their enemies in battle while women were reduced to sexual objects either trivialized as erotic trophies or depicted as sexualized villains using their bodies to prey on unsuspecting innocent men The result was the crafting and dissemination of a particular version of martial masculinity that helped establish GIs expectations and perceptions of war in Vietnam By examining the role that popular culture can play in normalizing wartime sexual violence and challenging readers to consider how American society should move beyond pulp conceptions of normal male behavior Daddis convincingly argues that how we construct popular tales of masculinity matters in both peace and war *No Sure Victory* Gregory A. Daddis, 2011-06-01 Conventional wisdom holds that the US Army in Vietnam thrust into an unconventional war where occupying terrain was a meaningless measure of success depended on

body counts as its sole measure of military progress In *No Sure Victory* Army officer and historian Gregory Daddis looks far deeper into the Army's techniques for measuring military success and presents a much more complicated and disturbing account of the American misadventure in Indochina Daddis shows how the US Army which confronted an unfamiliar enemy and an even more unfamiliar form of warfare adopted a massive and eventually unmanageable system of measurements and formulas to track the progress of military operations that ranged from pacification efforts to search and destroy missions The Army's monthly Measurement of Progress reports covered innumerable aspects of the fighting in Vietnam force ratios Vietcong North Vietnamese Army incidents tactical air sorties weapons losses security of base areas and roads population control area control and hamlet defenses Concentrating more on data collection and less on data analysis these indiscriminate attempts to gauge success may actually have hindered the army's ability to evaluate the true outcome of the fight at hand a roadblock that Daddis believes significantly contributed to the many failures that American forces suffered in Vietnam Filled with incisive analysis and rich historical detail *No Sure Victory* is not only a valuable case study in unconventional warfare but a cautionary tale that offers important perspectives on how to measure performance in current and future armed conflict Given America's ongoing counterinsurgency efforts in Iraq and Afghanistan *No Sure Victory* provides valuable historical perspective on how to measure and mismeasure military success     [Dak To and the Border Battles of Vietnam, 1967-1968](#) Michael A. reassessment of American military strategy in Vietnam Gregory Daddis overturns conventional wisdom and shows how Westmoreland did indeed develop a comprehensive campaign which included counterinsurgency civic action and the importance of gaining political support from the South Vietnamese population Exploring the realities of a large yet not wholly unconventional environment Daddis reinterprets the complex political and military battlefields of Vietnam Without searching for blame he analyzes how American civil and military leaders developed strategy and how Westmoreland attempted to implement a sweeping strategic vision Westmoreland's War is a landmark reinterpretation of one of America's most divisive wars outlining the multiple interconnected aspects of American military strategy in Vietnam combat operations pacification nation building and the training of the South Vietnamese armed forces Daddis offers a critical reassessment of one of the defining moments in American history

**Beyond the Call of Duty** Stephen L. Moore, 2024-12-03 As a child Robert Howard was taught by his Granny Callie to always face his threats head on Some thirty years later he emerged from the Vietnam War as America's most decorated Green Beret For the first time Robert Howard's story is being told in full Respected military historian Stephen L Moore takes readers into the heart of the Vietnam War's covert Special Ops jungle warfare in this immersive suspenseful read Through family sources National Archives documents and dozens of testimonials from the Green Berets who fought alongside him this one man army will finally be given the recognition he deserves Robert

Howard grew up in poverty in a small town in Alabama with a strong sense of faith and determination. When he enlisted in the army at age seventeen, his Granny Callie's words echoed in his head, and he pledged to follow them to the bitter end. In the most dire of combat experiences, Howard ran directly toward his opponents, sacrificing his body to protect others and to complete the mission above all else. Time and time again, he survived battles that should have claimed his life, suffering countless bullets, a spinal injury, and shrapnel and blast wounds. Recon commanders who ran missions with him declared him to be the bravest man they had ever met. In return, Howard received a staggering number of awards and ribbons for valor and distinctive service in combat, over fifty in all, including the Medal of Honor, eight Purple Hearts, the Distinguished Service Cross, a Silver Star, and four Bronze Stars. He holds the distinction of being the only soldier nominated for the Medal of Honor three times in only a thirteen-month period. In total, Howard spent a grueling, treacherous forty months in combat duty in Vietnam, including over two years with MACV SOG's elite covert group.

This book describes a critical chapter in the Vietnam conflict: the first eighteen months of combat by the U.S. Army's ground forces. The author focuses on initial deployments and early combat but attempts to present the war in all of its detail: the enemy's strategy and tactics, General William C. Westmoreland's search and destroy operations, the helicopters and airmobile warfare, the immense firepower American forces could call upon to counter Communist control of the battlefield, the out-of-country enemy sanctuaries, and the allied efforts to win the allegiance of the South Vietnamese people to the nation's anti-Communist government.
