traces its transmission via John Luther Long's short story and David Belasco's play. Archival sources many unpublished reveal how Puccini and his librettists imbued the opera with differing constructions of the action and its heroine. Groos's analysis suggests how they constructed a contemporary music drama with multiple possibilities for interpreting the misalliance between a callous American naval officer and an impoverished fifteen-year-old geisha, providing a more complex understanding of the heroine's presumed marriage. As an orientaling tragedy with a racially inflected representation of Cio Cio San, the opera became a lightning rod for identity politics in Japan while also stimulating decolonizing transpositions into indigenous theatre traditions such as Bunraku puppet theatre and Takarazuka musicals.
