to make sense of her diagnosis and treatment *Mourning a Breast* published two and a half years later is a disarmingly honest and deeply personal account of the author's experience of a mastectomy and of her subsequent recovery The book opens with her gently rolling up a swimsuit A beginning swimmer she loves going to the pool eavesdropping on conversations in the changing room shopping for swimsuits As this routine pleasure is revoked the small loss stands in for the greater one But Xi Xi's mourning begins to take shape as a form of activism In a conversational even humorous manner she describes her previous blinkered life of the mind before she came into her body and learned its language Addressing her reader as frankly and unashamedly as an old friend she coaxes and confesses confronts society's failings and advocates for a universal literacy of the body *Mourning a Breast* was heralded as the first Chinese language book to cast off the stigma of writing about illness and to expose the myths associated with breast cancer A radical and generous book about creating in the midst of mourning Using language that was deceptively simple almost childlike Xi Xi infused her fiction and poetry with eclectic references to literature cinema art architecture and fairy tales Her work captured the unease of Hong Kong's transition to Chinese rule gave voice to the city's children and working class residents and helped put it on the literary map *New York Times*
