Richard Hakluyt

Made In Brasil:

Made in Brasil Arlindo Machado, 2007 Made in Brasil traces the development of Brazilian television and its relationship with cinema, literature, and visual arts, highlighting key moments in Brazilian television history.

Made in Brazil Martha Tupinamba de Ulhoa, Cláudia Azevedo, Felipe Trotta, 2014-12-05 Made in Brazil Studies in Popular Music serves as a comprehensive and thorough introduction to the history, sociology, and musicology of twentieth-century Brazilian popular music. The volume consists of essays by scholars of Brazilian music and covers the major figures, styles, and social contexts of pop music in Brazil. Each essay provides adequate context so readers understand why the figure or genre under discussion is of lasting significance to Brazilian popular music. The book first presents a general description of the history and background of popular music in Brazil, followed by essays organized into thematic sections: Samba and Choro, History, Memory, and Representations, Scenes and Artists, and Music Market and New Media.

The Politics of Social Security in Brazil James Malloy, 2010-11-23 Brazil has one of the most elaborate social security systems in Latin America. This study follows the progressive evolution of social insurance policy from 1889 to 1979 through four alternating periods of democratic and authoritarian governments: oligarchic democracy, organic authoritarianism, populist democracy, and bureaucratic authoritarianism.

Development And Crisis In Brazil, 1930-1983 Luiz Bresser Pereira, 2019-03-04 In this first English language edition of a book that has seen thirteen printings in Brazil, Dr. Bresser Pereira analyzes Brazil's economy and politics from 1930, when the Brazilian industrial revolution began, up to July 1983. First addressing the period of strong development in Brazil between 1930 and 1961, he discusses at length the import substitution model of industrialization, the emergence of new classes (industrialists, industrial workers, and especially the new technobureaucratic middle classes), the conflict between the traditional agrarian ideologies of coffee planters and the nationalistic and industrializing ideologies of the new classes, and the new realities of the 1950s that led to the crisis of the populist alliance between the industrial bourgeoisie and the workers. Next, he explores the economic and political crisis of the sixties, centering on the Revolution of 1964, when an industrialized and fully capitalist but still underdeveloped Brazil experienced the cyclical movements of capitalism. The final chapters of the book examine the Brazilian miracle of 1967-1973, the economic slowdown of the 1970s that culminated in the severe recession of 1981, the dialectics between the process of abertura led by the military regime established in 1964 and the redemocratization process demanded by civil society, and the total crisis of 1983.
