## **Madison County Rediscovered Selected Historic Architecture:**

*Madison County Rediscovered* Lavinia Harvey Kubiak, 1988-01-01      **Boonesborough Unearthed** Nancy O'Malley, 2019-06-25 Throughout the Revolutionary War Fort Boonesborough was one of the most important and defensively crucial sites on the western frontier. It served not only as a stronghold against the British but also as a sanctuary, land office and a potential seat of government. Originally meant to be the capital of a new American colony, Fort Boonesborough was thrust into a defensive role by the onset of the Revolutionary War. Post-Revolutionary attempts to develop a town failed and the site was abandoned. Yet Fort Boonesborough lived on in local memory. *Boonesborough Unearthed* Frontier Archaeology at a Revolutionary Fort is the result of more than thirty years of research by archaeologist Nancy O'Malley. This groundbreaking book presents new information and fresh insights about Fort Boonesborough and life in frontier Kentucky. O'Malley examines the story of this historical landmark from its founding during a time of war into the nineteenth century. O'Malley also delves into the lives of the settlers who lived there and explores the Transylvania Company's dashed hopes of forming a fourteenth colony at the fort. This insightful and informative work is a fascinating exploration into Kentucky's frontier past. *Madison County, Kentucky* Harry C. Johnson, 2004 Situated on the southeastern edge of the Bluegrass Region, the rural community of Madison County lies in the heart of Kentucky's central rolling hills. Formed in 1785, the county was named for Virginia statesman James Madison. Education thrives in the region, which is home to both Eastern Kentucky University and Berea College. *Madison County, Kentucky* highlights the progress of the area over the 20th century, including the bustling railroad stations and lines that crossed the county and played an integral role in the local economy. *The Register of the Kentucky Historical Society* Kentucky Historical Society, 1989      *Standing on a Volcano* Harper Barnes, 2001 *Standing on a Volcano* The Life and Times of David Rowland Francis is a biography of a fascinating man and a long-needed major reassessment of a controversial and important figure in U.S. Soviet Relations. **BOOK JACKET**      **Architecture Series: Bibliography**, 1990

**New Publications for Architecture Libraries**, 1990      **Voices from the Century Before** Mary Clay Berry, 1997 For nearly a century, the letters of the Clay and Field families lay in a trunk in the dusty attic of an estate in Bourbon County, Kentucky. Written between 1843 and 1870, they soon captured the attention of regional historians and local archivists. For the Clays and Fields were distinguished families, and their members had played key roles in Kentucky's and indeed America's history. Family descendants like Mary Clay Berry, however, knew that the letters had greater significance than mere regional artifacts. The story they told was as great as the republic itself. The Clays and Fields were diplomats, housewives, store owners, politicians, gossips, Mississippi cotton planters, college students in New England, belles, entrepreneurs, and cattle farmers. Their correspondence comprises nothing less than a nineteenth-century American saga, a brilliant quilt of connected lives unfolding during the days of the country's greatest calamity, the Civil War. **BOOK JACKET** Title Summary field provided by Blackwell North America, Inc.
