Stanley Cavell on Aesthetic Understanding Garry L. Hagberg,2018-10-31 This book investigates the scope and significance of Stanley Cavell's lifelong and lasting contribution to aesthetic understanding. Focusing on various strands of the rich body of Cavell's philosophical work, the authors explore connections between his wide-ranging writings on literature, music, film, opera, autobiography, Wittgenstein, and Austin to contemporary currents in aesthetic thinking. Most centrally, the writings brought together here from an international team of senior, mid-career, and emerging scholars explore the illuminating power of Cavell's work for our deeper and richer comprehension of the intricate relations between aesthetic and ethical understanding. The chapters show what aesthetic understanding consists of, how such understanding might be articulated in the tradition of Cavell following Wittgenstein and J. L. Austin, and why this mode of human understanding is particularly important. At a time of quickening interest in Cavell and the tradition of which he is a central part and present-day leading exponent, this book offers insight into the deepest contributions of a major American philosopher and the profound role that aesthetic experience can play in the humane understanding of persons, society, and culture.

Death, Time and the Other Saitya Brata Das,2020-01-27 This book addresses the limits of metaphysics and the question of the possibility of ethics in this context. It is divided into six chapters, the first of which broadens readers' understanding of difference as difference with specific reference to the works of Hegel. The second chapter discusses the works of Emmanuel Levinas and the question of the ethical. In turn, the concepts of sovereignty and the eternal return are discussed in chapters three and four, while chapter five poses the question of literature in a new way. The book concludes with chapter six. The book represents an important contribution to the field of contemporary philosophical debates on the possibility of ethics beyond all possible metaphysical and political closures. As such, it will be of interest to scholars and researchers in both the humanities and social sciences. Beyond the academic world, the book will also appeal to readers, journalists, intellectuals, social activists, etc. for whom the question of the ethical is the decisive question of our time.

The Critical Romance Jean-Pierre Mileur,1990 Jean-Pierre Mileur asserts that the literary tradition, the great tradition of the Romantics, is now being carried on by criticism and that modern criticism is a late Romantic literary genre, a distinctive form of the romance. By collapsing the boundaries between the literary and the literary-critical traditions, Mileur embarks on a thought-provoking analysis of literary criticism. Criticism becomes a modern version of the age-old quest romance, and the critic becomes a romantic hero, a brooding figure fraught with self-doubt who strives like Browning's Childe Roland despite knowledge of certain failure. The Critical Romance is an exciting intervention in the critical study of criticism and makes a significant contribution to the study of Romanticism as well.

Nietzsche: Philologist, Philosopher and Cultural Critic Franson Manjali, 2006-06-06 The book contains the proceedings of a seminar Nietzsche Philologist Philosopher and Cultural Critic held at Jawaharlal Nehru University Delhi in November 2004. The papers appearing here were written by scholars from India, France, Germany, and Spain. They also come from several disciplinary backgrounds such as Philosophy, Literature, Political Science, Semiotics, Mathematics, and Aesthetics. The authors deal with different and varied aspects of the 19th century German philosopher Friedrich Nietzsche's life and work. Nietzsche has been one of the most important influences on contemporary cultural criticism. Post-structural and post-modern thought in the late 20th century French context owes much to Nietzsche's philosophical critique of European culture in particular and by extension of any totalising cultural, political, and ethical theory or practice anywhere. Beginning his career as a trained philologist, Nietzsche employed a mode of critical hermeneutics in order to deconstruct the highly cherished values and orientations of Europe, especially those associated with post-Socratic Greek thought, puritan Christianity, and modern science. Nietzsche's critical relationship with philology was similar to that between post-structuralism and structuralism in the 20th century. Nietzsche was a controversial, colourful, and multifaceted philosopher. The effects of his philosophy have been felt in fields as literature, aesthetics, religion, ethics, music criticism, ecology, and feminism. The over-valuation of art with respect to the domain of knowledge was one of his enduring contributions to modern post-modern philosophy. Nietzsche is also known, not the least, as a stylist of philosophical writing; the transformation and transgression of the limits of the dominant discourse being one of his more important philosophical concerns.

The New Order and Last Orientation Eric Voegelin, 1999 In *The New Order and Last Orientation*, Eric Voegelin explores two distinctly different yet equally important aspects of modernity. He begins by offering a vivid account of the political situation in seventeenth century Europe after the decline of the church and the passing of the empire. Voegelin shows how the intellectual and political disorder of the period was met by such seemingly disparate responses as Grotius's theory of natural right, Hobbes's *Leviathan*, the role of the Fronde in the formation of the French national state, Spinoza's *Tractatus Theologico Politicus*, and Locke's *Second Treatise*, the blueprint of a modern middle class society. By putting these responses and the thought of Montesquieu, Hume, and others in the context of the birth pains of the national state and the emergence of a new self-understanding of man, Voegelin achieves a brilliant mixture of political history and profound philosophical analysis. Voegelin's verdict of modernity is pronounced most powerfully in the opening part of *Last Orientation* in the chapter entitled *Phenomenalism*. His discussion of the intellectual confusion underlying the modern project of scientific phenomenalism is the most original criticism leveled against modernity to date. It is at the same time the first step toward a recovery of reality through philosophy conceived as a science of substance in the spirit of Giordano Bruno. Voegelin's first example of such an effort at recovering reality is the chapter on Schelling, one of the spiritual realists who has not been affected by the prevailing rationalist or reductionist creeds that are part of the modern disorder.

Schelling's indirect yet powerful influence on Schopenhauer, Nietzsche, and Freud more than justifies Voegelin's interest in his philosophy and character even though Voegelin would later distance himself from some of Schelling's positions. The volume's concluding chapter on Nietzsche and Pascal applies the understanding gained from the study of Schelling to the thought of the most powerful critic of the age. Nietzsche's self-avowed affinity with Pascal provides the key to an analysis of the strengths and weaknesses of his thought and reaffirms the connection that links the beginning of modernity with its most recent crises and the efforts to overcome them.

The Beautiful Animal Michael Lewis, 2018-06-20 Can philosophy conceive of a perfect animal? Can it think of the animal as anything other than an imperfect human? The book attempts to rethink the Hegelian dialectic so as to render it capable of assigning a proper place to the animal and in particular the beautiful animal and to rework the philosophy of nature so as to encompass the fossil. The fossil itself teaches philosophy and in particular the dialectic how it must modify itself in order to encompass the beautiful animal in the form of what we term the fossilised dialectic resistant to the spiritualisation which will always leave the animal behind. If philosophy can admit the animal in this way we might then ask what philosophy can learn from this animal that will have taken up residence in its home. What does a specifically domestic animal teach us? At the very least it shows us that the function we give to the furnishings of the house is not the only one and perhaps therefore that there is no single unique function. In this way animals teach us the most philosophical lesson there is: to see the world as it is in itself.

Death's

Following: Mediocrity, Dirtiness, Adulthood, Literature John Limon, 2012-07-02 Death's Following refuses the call of twentieth-century philosophy to face death heroically, advocating instead the mediocrity of Heidegger's *they-self* and its inauthentic, distanced relation to death. Through literary criticism and autobiography, the book considers mediocrity the privileged site for imagining eternal absence, mediocrity as practice for being forgotten.

Godsends William

Desmond, 2021-11-15 *Godsends* is William Desmond's newest addition to his masterwork on the borderlines between philosophy and theology. For many years William Desmond has been patiently constructing a philosophical project replete with its own terminology, idiom, grammar, dialectic, and its metaxological transformation in an attempt to reopen certain boundaries between metaphysics and phenomenology, between philosophy of religion and philosophical theology, between the apocalyptic and the speculative, and between religious passion and systematic reasoning. In *Godsends*, Desmond's newest addition to his ambitious masterwork, he presents an original reflection on what he calls the companioning of philosophy and religion. Throughout the book, he follows an itinerary that has something of an Augustinian likeness, from the exterior to the interior, from the inferior to the superior. The stations along the way include a grappling with the default atheism prevalent in contemporary intellectual culture, an exploration of the middle space, the *metaxu*, between the finite and the infinite, a dwelling with solitudes as thresholds between the self and the sacred, a meditation on idiot wisdom and transcendence in an East-West perspective, an exploration of the different stresses in the mysticisms of Aurobindo and the Arnhem Mystical

Sermons a dream monologue of autonomy a suite of Kantian and post Kantian variations on the story of the prodigal son a meditation on the beatitudes as exceeding virtue in light of Aquinas's understanding and culminating in an exploration of God's sends as telling us something significant about the surprise of revelation in word idea and story God's sends is written for thoughtful persons and scholars perplexed about the place of religion in our time and hopeful for some illuminating companionship from relevant philosophers It will also interest students of philosophy and religion especially philosophical theology and philosophical metaphysics

Life and Death in Freud and Heidegger Havi Carel, 2006 Life and Death in Freud and Heidegger argues that mortality is a fundamental structuring element in human life The ordinary view of life and death regards them as dichotomous and separate This book explains why this view is unsatisfactory and presents a new model of the relationship between life and death that sees them as interlinked Using Heidegger's concept of being towards death and Freud's notion of the death drive it demonstrates the extensive influence death has on everyday life and gives an account of its structural and existential significance By bringing the two perspectives together this book presents a reading of death that establishes its significance for life creates a meeting point for philosophical and psychoanalytical perspectives and examines the problems and strengths of each It then puts forth a unified view based on the strengths of each position and overcoming the problems of each Finally it works out the ethical consequences of this view This volume is of interest for philosophers mental health practitioners and those working in the field of death studies

The Death of God and the Meaning of Life Julian Young, 2014-05-16

What is the meaning of life In today's secular post religious scientific world this question has become a serious preoccupation But it also has a long history many major philosophers have thought deeply about it as Julian Young so vividly illustrates in this thought provoking second edition of The Death of God and the Meaning of Life Three new chapters explore Søren Kierkegaard's attempts to preserve a Christian answer to the question of the meaning of life Karl Marx's attempt to translate this answer into naturalistic and atheistic terms and Sigmund Freud's deep pessimism about the possibility of any version of such an answer Part 1 presents an historical overview of philosophers from Plato to Marx who have believed in a meaning of life either in some supposed other world or in the future of this world Part 2 assesses what happened when the traditional structures that give life meaning began to erode With nothing to take their place these structures gave way to the threat of nihilism to the appearance that life is meaningless Young looks at the responses to this threat in chapters on Nietzsche Heidegger Sartre Camus Foucault and Derrida Fully revised and updated throughout this highly engaging exploration of fundamental issues will captivate anyone who's ever asked themselves where life's meaning if there is one really lies It also makes a perfect historical introduction to philosophy particularly to the continental tradition
