Adults Kev Nickells, 2024-07-30 Taylor Swift for Adults is a tantalizing opening salvo in Swiftology the study of the work of Taylor Swift While Swift's private life has been covered to death her talent as a lyricist has rarely been analyzed Until now Swifties are well aware that she's a lyricist par excellence but this book makes that case to the unbelievers Swift's gift as a songwriter is not merely sentimentality and circumstance and this book takes a deep look at her 10 albums to isolate what makes her a beloved lyricist for millions Any serious study of a lyricist or poet needs to establish what are the tropes the patterns and the style of that artist and this book does precisely that With careful attention to poetic detail the scansion flow and form of her writing this brings out those details that pass by in a flash on the radio bringing them fully into focus Many have made the argument that Swift is a gifted lyricist in online forums and YouTube comments but this is the first time in writing those arguments have been given shape and serious attention It's a book aimed at adults but not puffed bores taking a subject seriously can also mean laughing at swearwords and sex metaphors Rather than puffed and straitened this is a lightly witty book expressing at its core a deep affection for this generation's favorite songwriter
