establishing foundational myths and finding commonalities of experience are pivotal steps in the construction of national identity. Such nation building is always incomplete but the cinema provides an important forum in which notions of German history and national identity can be consumed, negotiated and contested. This book looks at history films made since 1989 exploring how utopianism and political dissent have shaped German identity. It studies the genre including popular successes, critical successes and perceived failures as a set of texts and a discursive network gauging which conventions and storylines are resilient. At issue is the overriding question to what extent do these films contribute to a narrative that legitimizes the German nation state. Architectures of Occupation in the Australian Short Story Patrick West, 2024-05-28. Patrick West's *Architectures of Occupation in the Australian Short Story* cultivates the potential for literary representations of architectural space to contribute to the development of a contemporary politics of Australian post colonialism. West argues that the predominance of tropes of place within cultural and critical expressions of Australian post colonialism should be re balanced through attention to spatial strategies of anti colonial power. To elaborate the raw material of such strategies, West develops interdisciplinary close readings of keynote stories within three female authored twentieth century Australian short story collections: *Bush Stories* by Barbara Baynton 1902, *Kiss on the Lips and Other Stories* by Katharine Susannah Prichard 1932 and *White Turtle: A Collection of Short Stories* by Merlinda Bobis 1999. The capacity of the short story form to prompt creative and politically germinal engagements with species of space associated with architecture and buildings is underscored. Relatedly, West argues that the recent resurgence of binary thought on local, national and international scales occasions an approach to the short story collections shaped by binary relationships like a dichotomy of inside and outside. Concluding his argument, West connects the literary and architectural critiques of the story collections to the wicked problem linked to ongoing colonial violences of improving Australian Indigenous housing outcomes. Innovative and interdisciplinary, this book will be of interest to scholars and students of Literary, Architectural and Postcolonial Studies.

Our Human Herds Stephen Martin Fritz, 2020-09-04. *Our Human Herds* presents a new theory in moral and political philosophy called dual morality. The theory proposes that just as the physical senses of sight, smell, taste, touch and hearing evolved to help us navigate our physical environment, two independent moral senses evolved to guide us to success in our social world. One prioritizes cooperation, the other competition. The first bases moral justification on

the egalitarianism that emphasizes our equal worth the other finds moral justification in the inequalities that allow us to distinguish better from worse Liberal and conservative are merely the names given to the political manifestations of these two forms of moral expression just as socialist and capitalist describe their economic manifestations and personality and character their psychological ones Our Human Herds addresses what it means to be a human being why we fight about the things that divide us and why we unite behind the ideas that draw us together The book examines all aspects of human social behavior revealing how and why we often disagree in our approaches to education history war crime pleasure happiness politics science and religion This is a learned thoroughly researched study and dazzlingly bright The effervescent approach to writing makes its pages fly by Studies as brilliant as this one deserve a far wider audience An engrossing and mind expanding examination of morality Kirkus Reviews Book Review A vast philosophical study charts the shifting moral landscape while tackling the weightiest question of human existence what is the meaning of life Humanity's moral framework remains in a constant state of reconstruction As the author points out in his opening chapter Two hundred years ago if a woman was raped and became pregnant we'd kill the rapist and spare the baby Today we spare rapist and kill the baby Centuries ago many cultures condoned polygamy today we put people in jail for it Over the course of this weighty tome which is just shy of 1 000 pages the author ponders what morality is with an emphasis on humans as grouping or herding creatures and the causes of its flux and reflux Furthermore there is an attempt to reconcile opposing philosophical theories by introducing a new conceptual model called Dual Morality proposed as an all encompassing blueprint of human morality The study is logically structured divided into four sections The Theory of Dual Moralism The Explanation including investigations of the group and the self The Derivations which considers family country religion and science nature technology and finally The Extrapolations a far reaching look at everything from pleasure and happiness to suicide murder and abortion The author possesses the rare skill of being able to explore himself with an enviable ease drawing on palatable references to popular culture For example Comedian Woody Allen said he laughs at his own jokes when they first come to him because humor originates in the unconscious When his conscious mind hears them for the first time it is as if they came from another place and so we are in a way an audience to our own humor This approach applied throughout makes complex ideas not only accessible but entertaining and enjoyable as well The result is far from the predictable dry academic thesis This is a learned thoroughly researched study and dazzlingly bright The effervescent approach to writing makes its 951 pages fly by Fritz's dedication is to that miniscule fragment of humanity who read books like this Studies as brilliant as this one deserve a far wider audience An engrossing and mind expanding examination of morality Kirkus Indie Kirkus Media LLC 6411 Burleson Rd Austin TX 78744 indie kirkusreviews

The Creed in Slow Motion Martin Kochanski, 2022-06-30 I believe in one God the Father almighty maker of heaven and earth The Creed is the bones of our faith In all our different ways it makes us who we are But when we stand up and recite the Creed in unison we have no time to contemplate what it is that we are committing

ourselves to The words rush past their meaning blurred by familiarity If we could only slow them down and hear them properly they would have the power to change worlds That is what The Creed in Slow Motion aims to do This is a book for people who like to think things through from first principles It will not tell you what to believe It is for you to engage your mind and discover that for yourself And for unbelievers to learn what exactly they disbelieve and why In forty short chapters with clarity and wit The Creed in Slow Motion draws examples from real life stories history and even science to uncover the core claims of Christianity By turns it is deep heartening startling revolutionary and even by the world s standards outrageous
