Maelers Regard:

Discourse Markers in Early Modern English Ursula Lutzky, 2012-11-15 This volume provides new insights into the nature of the Early Modern English discourse markers marry well and why through the analysis of three corpora A Corpus of English Dialogues 1560 1760 the Parsed Corpus of Early English Correspondence and the Penn Helsinki Parsed Corpus of Early Modern English By combining both quantitative and qualitative approaches in the study of pragmatic markers innovative findings are reached about their distribution throughout the period 1500 1760 their attestation in different speech related text types as well as similarities and differences in their functions Additionally this work engages in a sociopragmatic study based on the sociopragmatically annotated Drama Corpus of almost a quarter of a million words to enhance our understanding about their use by characters of different social status and gender This volume therefore constitutes an essential piece of the puzzle in our attempt to gain a full picture of discourse marker use

Discourse Markers Across Languages Dirk Siepmann, 2005 This book offers a corpus based comparative study of an almost entirely unexplored set of multi word lexical items serving pragmatic or text structuring functions Part One provides a descriptive account of multi word discourse markers in written English French and German focussing on discussion of interlingual equivalence Part Two examines the use of multi word markers by non native speakers of English and discusses lexicographical and pedagogical implications

Layout Markers in Biblical Manuscripts and Ugaritic Tablets M.C.A. Korpel, Joseph Oesch, 2021-12-28 Series Pericope 5 Scripture as written and read in antiquity A lucid delimitation of textual units appears to have been a serious concern of ancient scribes In this fifth volume of the Pericope series this is demonstrated in the papers read at the Fourth Pericope Meeting held in connection with the SBL International Meeting at Cambridge 2003 For the first time articles on text division in New Testament manuscripts are included one on the pericope markers in some relatively early manuscripts especially papyri as well as in the four major codices and another article on Codex Boernerianus and papyrus 46 of the letters of Paul Other topics discussed are the setumot and petuchot in Numbers and Amos and the special phrases preceding or following them Is it possible to get more insight in the way the ancient scribes put in the spaces and blank lines in their manuscripts Furthermore the divisions made by Jerome in his commentary on the Book of Isaiah are investigated and the question about the frame story of the Book of Job is it prose or poetry The structural unity of Micah 6 is discussed resulting in some challenging proposals to resolve old exegetical problems The structure of Zechariah 4 is illuminated by data from ancient manuscripts and compared to modern divisions of the chapter Finally a study on physical division markers in ritual texts from Ugarit Babylonia and Israel reveals a long standing tradition of fixed liturgical sequences in the cult The Pericope series aims at making available data on unit delimitation found in biblical and related manuscripts to the scholarly world and provides a platform for evaluating this hitherto largely neglected evidence for the benefit of biblical interpretation

Corpus Linguistics Ana María Hornero Corsico, Ana María Hornero, María José Luzón, Silvia Murillo Ornat, 2008 The aim of this volume is to present a state of the art view on corpus studies This collection of papers presented at the XII Susanne Hbner Seminar in November 2003 at the University of Zaragoza comprises both quantitative and qualitative analyses and studies on both written and oral corpora Structured in seven sections the book covers a wide range of approaches and methodologies and reflects current linguistic research The papers have been written by scholars from a large number of universities mainly from Europe but also from the USA and Asia The volume offers contributions on diachronic studies pragmatic analyses and cognitive linguistics as well as on translation and English for Specific Purposes The book includes several papers on corpus design and reports on research on oral corpora At a more specific level the papers analyse aspects such as politeness issues dialectology comparable corpora discourse markers the expression of evidentiality and writer stance metaphor and metonymy conditional sentences evaluative adjectives delexicalised verbs and nominalization

Ojibwe Discourse Markers Brendan Fairbanks, 2016-05-01 Published through the Recovering Languages and Literacies of the Americas initiative supported by the Andrew W Mellon Foundation Brendan Fairbanks examines the challenging subject of discourse markers in Ojibwe one of the many indigenous languages in the Algonquian family Mille Lacs elder Jim Clark once described the discourse markers as little bugs that are holding on for dear life For example discourse markers such as mii and gosha exist only on the periphery of sentences to provide either cohesion or nuance to utterances Fairbanks focuses on the discourse markers that are the most ubiquitous and that exist most commonly within Ojibwe texts Much of the research on Algonquian languages has concentrated primarily on the core morphological and syntactical characteristics of their sentence structure Fairbanks restricts his study to markers that are far more elusive and difficult in terms of semantic ambiguity and their contribution to sentences and Ojibwe discourse Ojibwe Discourse Markers is a remarkable study that interprets and describes the Ojibwe language in its broader theoretical concerns in the field of linguistics With a scholarly and pedagogical introductory chapter and a glossary of technical terms this book will be useful to instructors and students of Ojibwe as a second language in language revival and maintenance programs
