*Creating the New Right Ethnic in 1970s America* Richard Moss,2017-03-15 This work analyzes the New Ethnicity of the 1970s as a way of understanding America s political turn to the right in that decade An upsurge of vocal ethnic consciousness among second third and fourth generation Southern and Eastern Europeans the New Ethnicity simultaneously challenged and emulated earlier identity movements such as Black Power The movement was more complex than the historical memory of racist reactionary white ethnic leaders suggests The movement began with a significant grassroots effort to gain more social welfare assistance for near poor white ethnic neighborhoods and ease tensions between the working class African Americans and whites who lived in close proximity to one another in urban neighborhoods At the same time a more militant strain of white ethnicity was created by urban leaders who sought conflict with minorities and liberals The reassertion of ethnicity necessarily involved the invention of myths symbols and traditions and this process actually served to retard the progressive strain of New Ethnicity and strengthen the position of reactionary leaders and New Right politicians who hoped to encourage racial discord and dismantle social welfare programs Public intellectuals created a mythical white ethnic who shunned welfare valued the family and provided an antidote to liberal elitism and neighborhood breakdown Corporations and publishers embraced this invented ethnic identity and codified it through consumption Finally politicians appropriated the

rhetoric of the New Ethnicity while ignoring its demands The image of hard working self sufficient ethnics who took care of their own neighborhood problems became powerful currency in their effort to create racial division and dismantle New Deal and Great Society protections      **Confirmation Hearings on Federal Appointments** United States. Congress. Senate. Committee on the Judiciary,2003      **Synthetic Panics** Philip Jenkins,1999-07-01 America has a long history of drug panics in which countless social problems have been blamed on the devastating effects of some harmful substance In the last forty years such panics have often focused on synthetic or designer drugs like methamphetamine PCP Ecstasy methcathinone and rave drugs like ketamine and GHB Fear of these substances has provided critical justification for the continuing war on drugs Synthetic Panics traces the history of these anti drug movements demonstrating that designer chemicals inspire so much fear not because they are uniquely dangerous but because they bring into focus deeply rooted public concerns about social and cultural upheaval Jenkins highlights the role of the mass media in spreading anti drug hysteria and shows how proponents of the war on drugs use synthetic panics to scapegoat society s others and exacerbate racial class and intergenerational conflict
