Buckingham, S. Bragg, 2003-12-05 Are children today growing up too soon How do they and their parents feel about media portrayals of sex and personal relationships Are the media a corrupting influence or a potentially positive and useful resource for young people Drawing on an extensive research project which investigated children s interpretations of sexual content in films TV and print media this book considers how young people aged 9 17 use such material to understand their experiences and build their identities and how they and their parents respond to public concerns about these issues The book offers a clearly written and entertaining insight into children s and parents perspectives on these difficult issues perspectives that are often ignored or trivialised in public debate Adolescent Sexual Socialization and Teen Magazines Suchi P. Joshi, 2012 The majority of scientific research on teen magazines has been conducted from a single country perspective even though the experience of sex and sexuality is known to vary by country Moreover no research to date has analyzed the sexual content of teen magazines and directly linked it to how young people think or feel about sex In response to these shortcomings this book

analyzes the topics of sexual desire sexual danger virginity loss pregnancy and the hook up culture in the most popular teen magazines of the United States and the Netherlands Results are then linked to US and Dutch young people s magazine reading and fear of sex and further investigated by religiosity While this book primarily addresses researchers of adolescent sexual socialization it also offers practical insights to parents health educators government officials and magazine editors ultimately revealing that adolescent sex as a forbidden fruit is a relative term contingent upon culture
