from its roots as a game to its supposed connection to ancient Egyptian magic through its place in secret societies and to its current use in meditation and psychology This section ends with an examination of the people who make up today's Tarot community Then specific areas of popular culture art television movies and comics are each given a chapter in which to survey the use of Tarot In this section author Patrick Maille analyzes such works as Deadpool Books of Magic by Neil Gaiman Disney's Haunted Mansion Sherlock Holmes Game of Shadows The Andy Griffith Show Buffy the Vampire Slayer and King of the Hill The cards are evocative images in their own right but the mystical fascination they inspire makes them a fantastic tool to be used in our favorite shows and stories

Lies that Tell the Truth Anne C. Hegerfeldt, 2005 Magic realism has long been treated as a phenomenon restricted to postcolonial literature Drawing on works from Britain Lies that Tell the Truth compellingly shows how magic realist fiction can be produced also at what is usually considered to be the cultural centre without forfeiting the mode s postcolonial attitude and aims A close analysis of works by Angela Carter Salman Rushdie Jeanette Winterson Robert Nye and others reveals how the techniques of magic realism generate a complex critique of the West s rational empirical worldview from within a Western context itself

Understanding magic realism as a fictional analogue of anthropology and sociology Lies that Tell the Truth reads the mode as a frequently humorous but at the same time critical investigation into people s attempts to make sense of their world By laying bare the manifold strategies employed to make meaning magic realist fiction indicates that knowledge and reality cannot be reduced to hard facts but that people s dreams and fears ideas stories and beliefs must equally be taken into account *Magical Religion and Modern Witchcraft* James R. Lewis,1996-04-19 Provides an overview of neo paganism from the Goddess to magic and rituals from history and ethics to the relationship of neo paganism to Christianity **Slow Magic** Anthony Rella,2025-08-05 Create Sustainable Positive Change and Stay Motivated in the Long Term Meaningful experiences don t come without commitment you need slow magic for profound and enduring work Featuring more than fifty hands on exercises alongside theoretical discussions of magic this book supports you in making big changes without getting burned out Whether you re a Wiccan ceremonial magician or practice any other Western tradition Anthony Rella provides the tools and techniques you need to stay engaged with your goal over days months and years He also helps you evaluate today s magical outcomes so you can make future workings better With Anthony s guidance you will connect to the universe on a deeper level and confidently manifest what you need when you need it Ritual Embodiment in Modern Western Magic Damon Zacharias Lycourinos,2017-11-15 In the Western world magic has often functioned as an umbrella term for various religious beliefs and ritual practices that seek to influence events by harnessing supernatural power The definition of these myriad occult and esoteric traditions have however usually come from those that are opposed to its practice notably authorities in religious legal and intellectual spheres This book seeks to provide a new perspective directly from the practitioners of modern Western magic by exploring how a distinctive mode of embodiment and consciousness can produce a transition from an ordinary to a magical worldview Starting with an introduction to the study of magic in the Western academy the book then presents the author s own participant observation of five ethnographic case studies of modern Western magic The focus of these ethnographic case studies is directed towards ideas and methods the informants employ to self legitimise and self represent as magicians It concludes by discussing the phenomenological implications and issues around embodiment that are inherent to the contemporary practice of magic This is a unique insight into the lived experience of practitioners of modern magic As such it will be of keen interest to scholars of the Occult and New Religious Movements as well as Religious Studies academics examining issues around the embodiment and the anthropology of religion
