MAJOR MANAGEMENT CHALLENGES AND PROGRAM RISKS

Departments of Defense, State, and Veterans Affairs

Statement of David M. Walker
Comptroller General of the United States

Major Management Challenges And Government Risks A Governmentwide Perspective

David M. Walker

Major Management Challenges And Government Risks A Governmentwide Perspective:

Major Management Challenges and Program Risks United States. General Accounting Office,1999 Major Management Challenges and Program Risks ,2001 *Major Management Challenges and Government Risks* Victor S. Rezendes,2003-07 In its 2001 Governmentwide Perspective the General Accounting Office GAO identified operational challenges such as the continuing need to implement management reforms and discussed the need to address human capital and other strategic challenges particularly the longer term budget outlook The information that GAO presents in this report is intended to help sustain congressional attention in addressing the challenges government faces in doing business in the 21st century This report is part of a special series of reports on governmentwide and agency specific issues *Information Resources Management* United States. General Accounting Office,2002 The events of September 11 and the subsequent anthrax attacks demonstrated the importance of accurate timely information and the time for strong leadership in integrating and managing this information government agencies As agencies have struggled with issues intelligence gathering information sharing and dissemination security and information technology IT it has become increasingly apparent our government needs to better assess from a strategic standpoint aspects of how it handles information Homeland Security Preparedness and Information Systems: Strategies for Managing Public Policy Reddick, Christopher G.,2009-09-30 This book examines the impact of Homeland Security Information Systems HSIS on government discussing technologies used in a national effort to prevent and respond to terrorist attacks and emergencies such as natural disasters Provided by publisher

A Model of Strategic Human Capital Management United States. General Accounting Office,2002 A Model of Strategic Human Capital Management David M. Walker,2002-07 Intended to help Federal agency leaders better manage their organizations most important asset their people Federal agencies that acquire develop and retain high performing employees with the appropriate skills and competencies are better able to respond to the needs of the public on a daily basis and in times of crisis This model is designed to help agency leaders effectively use their people or human capital and determine how well they integrate human capital considerations into daily decision making and planning The model highlights the importance of a sustained commitment by agency leaders to maximize the value of their agencies human capital and manage related risks *Human capital building the information technology workforce to achieve results* ,2001

Human capital attracting and retaining a highquality information technology workforce ,2001 **Federal Chief Information Officers** United States. Government Accountability Office,2004 Federal Acquisition United States. Congress. House. Committee on Government Reform. Subcommittee on Government Management, Information, and Technology,2001 Vulnerabilities to Waste, Fraud, and Abuse United States. Congress. House. Committee on Government Reform. Subcommittee on National Security, Veterans Affairs, and International Relations,2001 *Indexes for Abstracts of Reports and Testimony* ,1999 **All the Facts** James W. Cortada,2016-03-16 This is the first national history of the role of

information in the United States from the 1870s to the present It explores the use of information in the private and public sectors and in the private lives of Americans It argues that this role of information was as important in shaping the United States as the settling of the West the creation of a nation out of immigrants and its democracy **The Federal Workforce** United States. Congress. Senate. Committee on Governmental Affairs. Subcommittee on International Security, Proliferation, and Federal Services,2003 The Art of Governance Patricia W. Ingraham,Laurence E. LynnJr.,2004-11-17 Public administration has evolved into an extraordinarily complex form of governance employing traditional bureaucracy quasi government public organizations and collaborative networks of nongovernmental organizations Analyzing and improving government performance a matter of increasing concern to citizens elected officials and managers of the organizations themselves has in turn become a much more fraught undertaking Understanding the new complexities calls for new research approaches The Art of Governance presents a fresh palette of research based on a new framework of governance that was first developed by coeditor Laurence E Lynn Jr with Carolyn J Heinrich and Carolyn J Hill in their book Improving Governance A New Logic for Empirical Research That book identified how the relationships among citizens legislatures executive and organizational structures and stakeholders interact in order to better diagnose and solve problems in public management This volume takes that relational concept into new realms of conceptualization and application as it links alternative institutional and administrative structures to program performance in different policy areas and levels of government Collectively the contributors begin to paint a new picture of how management matters throughout the policy process They illuminate how at different levels of an organization leadership and management vary and explore both the significance of structural systems and the importance of alternative organizational forms for the implementation of public policies The Art of Governance shows that effective governance is much more complex than paint by number But if the variety of forms and models of governance are analyzed using advanced theories models methods and data important lessons can be applied that can lead us to more successful institutions *Quality Management at the Federal Level* United States. Congress. Senate. Committee on Governmental Affairs. Subcommittee on Oversight of Government Management, Restructuring, and the District of Columbia,2000 **Opportunities for Oversight of Taxpayer Funds** United States. General Accounting Office,2003 *VA IT Infrastructure Reorganization and the Role of the CIO* United States. Congress. House. Committee on Veterans' Affairs,2006 **Human capital key principles for effective strategic workforce planning. ,**
