Philip Barnes, 2019-12-05 Crisis Controversy and the Future of Religious Education sets out to provide a much needed critical examination of recent writings that consider and respond to the crisis in religious education and more widely to a crisis in non confessional forms of religious education wherever practised The book is critical wide ranging and provocative giving attention to a range of responses some limited to the particular situation of religious education in England and some of wider application for example that of the role and significance of human rights and that of the relevance of religious studies and theology to religious education It engages with a variety of positions and with recent influential reports that make recommendations on the future direction of religious education Constructively it defends both confessional and non confessional religious education and endorses the existing right of parental withdrawal Controversially it concludes that the

case for including non religious worldviews in religious education and for the introduction of a statutory objective national religious education curriculum for all schools are both unconvincing on educational philosophical and evidential grounds Timely and captivating this book is a must read for religious and theological educators RE advisers classroom teachers student teachers and those interested in the field of religious education

Teaching Religious Education Creatively

Religious Education and the Public Sphere

Patricia Hannam,2018-08-06 Religious Education and the Public Sphere reveals through an analysis of theory and practice that religious education is resting on historic and persistent assumptions about both religion and education Drawing on work from Arendt and Weil new ideas emerge regarding religious education s constituent elements education and religion It offers a new and timely proposal for religious education and argues for a broader understanding of religion bringing a fresh contribution to current discussions regarding the relationship between religion and education in the public sphere Some

practical considerations emerging from theory developing through the earlier parts of the book are presented in the final section including the teacher's role and what should guide religious education curriculum. At a time when there is raised interest in the role of religion in the public sphere internationally, this book aims to contribute something new both theoretically and practically to discussions regarding the role of religion in education and is relevant to educational contexts worldwide. This book will be vital reading for academics and researchers in the fields of religion and religious studies, education philosophy of education and religious education and will also be of great interest to teachers and policy makers working in the field of religious education in the public sphere.

The Oxford Handbook of Religion and Education Liam Francis Gearon, Arniika Kuusisto, 2025-04-29. The Oxford Handbook of Religion and Education offers a multi-disciplinary work of scholarship and research highlighting the global significance of a critical interface of cultural and social, political and theological importance. Drawing on historical perspective and contemporary reflection, the collection provides a uniquely transformative analysis of why the interface of religion and education is of such critical significance. With contributions from some of the leading thinkers in the field, this Handbook presents a cumulatively powerful argument to reassess the complexities of the intersection of religion and education. With ambitious and yet accessible intellectual engagements, the Handbook here furthers a central thesis that the interface of religion and education is not merely a matter of arcane disputation about a domain of ancient origin or a rudimentary matter of formal educational process, but a vibrant domain of critical contestation fundamental to knowing, understanding and living in the modern world.

Conceptualising Religion and Worldviews for the School Kevin O'Grady, 2022-07-14. This timely volume addresses current debates surrounding the transition from the teaching of religious education (RE) to the more holistic subject of Religion and Worldviews (RW) in England and posits criteria for best practice among educators in varied settings and in a broader international context. By examining empirical sources, governmental reports and in particular the 2018 final report from the Commission on Religious Education (CORE), the volume suggests key principles needed to guide the transition and ensure that RW is effectively integrated into curricula, pedagogy and teaching resources to meet the needs of all student groups. By effectively conceptualising RW, the volume gives particular attention to the intersections of the subject with democratic citizenship education, intercultural competence and religious literacy. This text will benefit researchers, academics and educators with an interest in religious education and teacher education as well as the philosophy and sociology of education more broadly. Those interested in education policy and politics as well as citizenship and schooling in the UK will also benefit from this volume.

Rethinking Religious Education and Plurality Robert Jackson, 2013-02-01. How should schools deal with religions in matters of curriculum, procedure and policy? As Western society becomes increasingly multicultural, in character schools must reassess the provision of religious education and look at how they might adapt in order to accommodate students diverse

experiences of plurality This book offers a critical view of approaches to the treatment of different religions in contemporary education in order to devise approaches to teaching and learning and to formulate policies and procedures that are fair and just to all Beginning with a contextual overview of the religious social and cultural changes of the past fifty years the book goes on to illuminate and assess six different responses to the challenges posed by religious plurality in schools Conclusions are drawn from the various positions explored in this book identifying what the character of religious education should be how it should be taught and addressing the issues raised for policy practice and research Rethinking Religious Education and Plurality argues for a plural approach to education and will be a valuable resource for students and researchers studying courses in religious education as well as teachers education advisers and policy makers *Christian Education Teaching Methods - From Modern to Postmodern* Carlos C. Roberts, 2009-11 This book provides pastors professional teachers students of religious education or Christian education theological students and Sunday school teachers with methods of teaching the faith today and opportunities to reflect critically on the methods and approaches they use in the classroom in the changed cultural context of our postmodern world The book is the result of years of practical experience in the field of Christian education as a Director of Religious Education and head of a team involved in providing religious education training and producing teaching materials and textbooks for Sunday school and professional teachers of Christian education This book proposes the Herald model of church and model of Christian education as a very helpful model for postmodern culture

Learning to Deliberate in Religious Education Isolde Driesen, 2011 Religious and moral pluralism is intrinsic to present day society Pluralism includes both the diversity of religions and worldviews external pluralism and the diverse conceptions of a transcendent reality and a good life within religions internal pluralism This book deals with the challenges this pluralism poses for Christian adult education The goal is to form a clearer picture of how educators deal with pluralism in their practice The premise is that this is particularly evident in the goal orientations and the educational methods they choose This book presents a typology of religio moral education which is empirically tested in the Catholic context in the Netherlands It explores the goal orientations and methods of religious and moral educators and examines the crucial relation between them The educator's choices are also evaluated in the light of a considered approach to pluralism Isolde Driesen 1971 worked as a junior researcher at the Faculty of Theology of the Radboud University Nijmegen on the research project Pluralism and Christian adult education Debates in Religious Education L. Philip Barnes, 2011-07-07 What are the key debates in Religious Education teaching today Debates in Religious Education explores the major issues all RE teachers encounter in their daily professional lives It encourages critical reflection and aims to stimulate both novice and experienced teachers to think more deeply about their practice and link research and evidence to what they have observed in schools This accessible book tackles established and contemporary issues enabling you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding Taking account of recent controversy and challenging

assumptions about the place of religion in education expert contributors cover key topics such as Effective pedagogy in RE teaching Exploring thinking skills and truth claims The relationship of science and religion in the classroom The place of school worship in contemporary society The role of RE in spiritual and moral development Diversity in the RE classroom With its combination of expert opinion and fresh insight Debates in Religious Education is the ideal companion for any student or practising teacher engaged in initial training continuing professional development and Masters level study

Religious Education in a World of Religious Diversity Wilna A.J. Meijer, Siebren Miedema, Alma Lanser-van der Velde, 2009 This volume brings together a selection of papers presented at the Fifteenth Session of the International Seminar on Religious Education and Values ISREV which took place in 2006 in Driebergen the Netherlands addressing the theme Religious Education in a World of Religious Diversity The authors were invited to combine the concept of diversity with the dimensions of temporality of time and history in reworking their contributions for this book This temporal aspect is in a sense inherent in educational thinking On the one hand education as intergenerational transmission has a conservative aspect tradition being what is actually and presently transmitted from the past and or what is considered worthwhile to be passed on On the other hand acknowledging the activity of students themselves as a prerequisite for any education to happen brings the open endedness and therefore the future into the pedagogical arena in terms of development learning reflection edification et cetera So the question answered in this volume is what does this inherent historicity mean for religious education as well as for the concept religion and religious diversity In answering this question the contributions represent the global character of the concern with religious diversity in relation to religious education and originate respectively from the following countries Canada Bhikkhu English United States Moran Latvia Ilishko Russia Kozyrev Germany Pirner South Africa Roux du Preez Ferguson Japan Omori Australia de Souza Turkey Sel uk and the Netherlands Meijer Miedema
